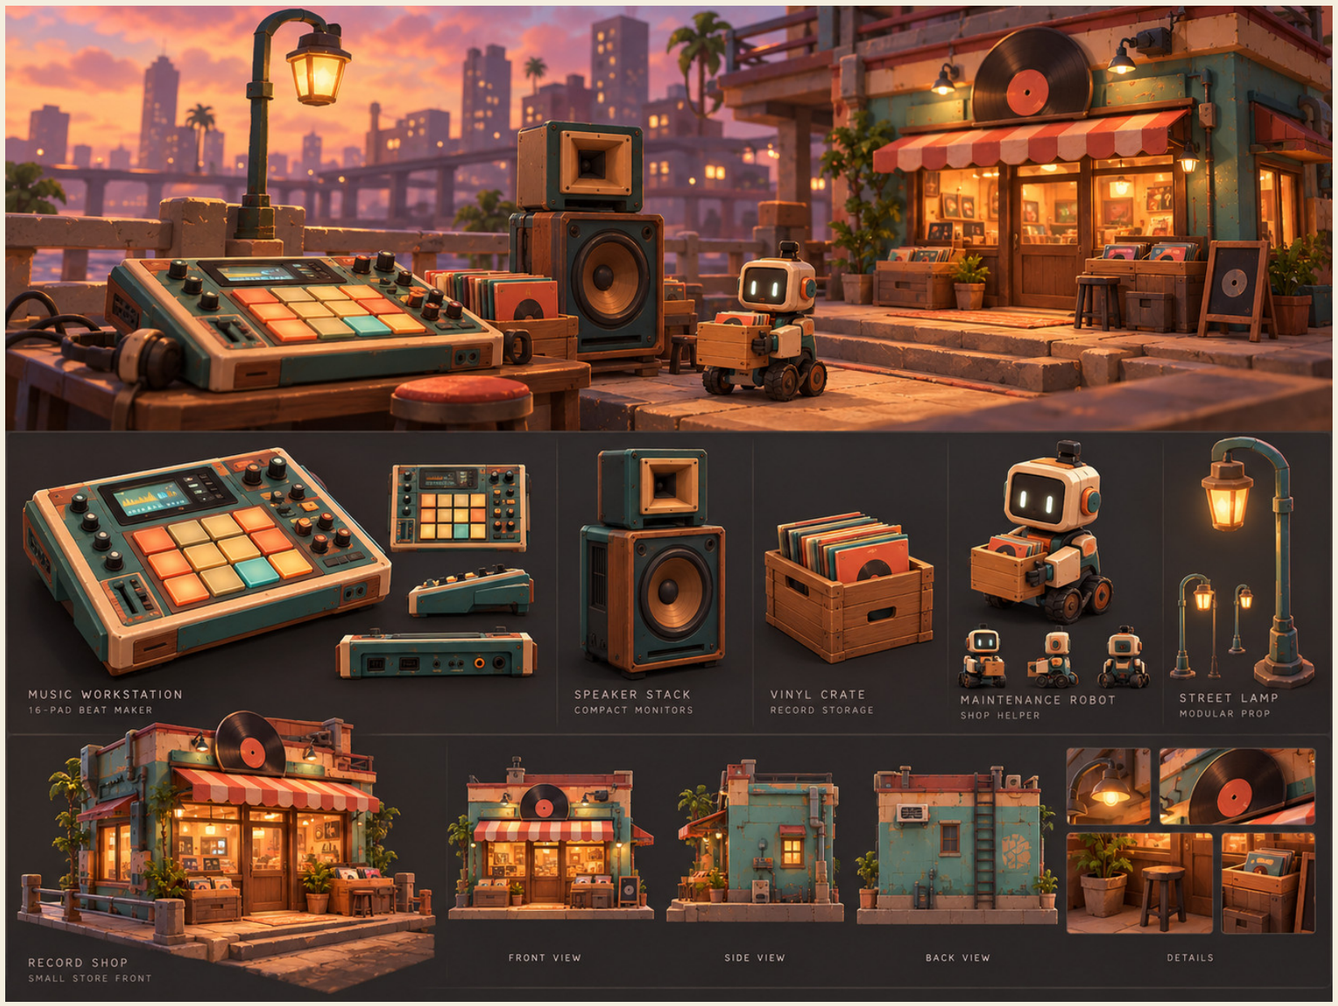
Needle Quay

Buildings, Characters & Street Art

VOL. 01 · Production Register v1.0 · consolidated concept package

13 building sheets · 4 parking venues · 7 NPC identities · 13 quest briefs · 12 material families · 61 graphic specifications



Визуальные материалы и все 13 building concepts одобрены пользователем 25 октября 2026.

Документ объединяет утверждённое направление, строительные карточки и производственные реестры. Добавлены шесть новых NPC design sheets, шесть моделей с 15-bone rigid rigs, существующий Mica/H04, 61 графический дизайн и 12 материальных источников. Это локальные production candidates; игровое исполнение квестов не подтверждено.

Исходный XLSX и 74 canonical package IDs сохранены. H06 использует canonical 32×16×24 в blockout. Производственный вариант сохраняет 32×16×24 и предлагает clear interior 30×14; несовместимое legacy 24×20 не переносится.

Как читать этот том / Acceptance ledger

Одобрено человеком: предыдущие артбуки и 13 сохранённых concept PNG. Receipt фиксирует точные SHA-256 файлов: docs/needle-quay/ART_APPROVAL_2026-10-25.json.

Произведено локально: machine-readable environment register, 13 concept sheets, deterministic blockout source и отдельный native Studio scene. Исторический Studio Edit receipt подтверждает открытие сцены, а не runtime acceptance.

Дополнено производством: 13 building GLB/Blender candidates с ортографическими рендерами; шесть новых NPC sources/rigs + existing H04; 61 графический дизайн, 8 faded variants; 12 procedural material swatches; полные design contracts Q00–Q12. Final UV/material bake, animation clips, Studio import и runtime acceptance остаются отдельными gates.

Стадии отдельно: concept art-approved → deterministic production/DCC-clean → production art approval → Studio-imported → runtime-verified. Approval рисунка не перескакивает последующие стадии.

Исходные задачи 1–3: реестр, visual sheets и начало blockout. Этот том консолидирует их. Полный production register содержит дополнительное производство и игровую интеграцию, статус которых указан явно.

Авторские ограничения: габариты, бюджеты и grid — проектные требования, не Roblox platform limits. Billable Tripo batches и Roblox uploads/publishing не выполнялись. User requested scoped Git preservation of this package.

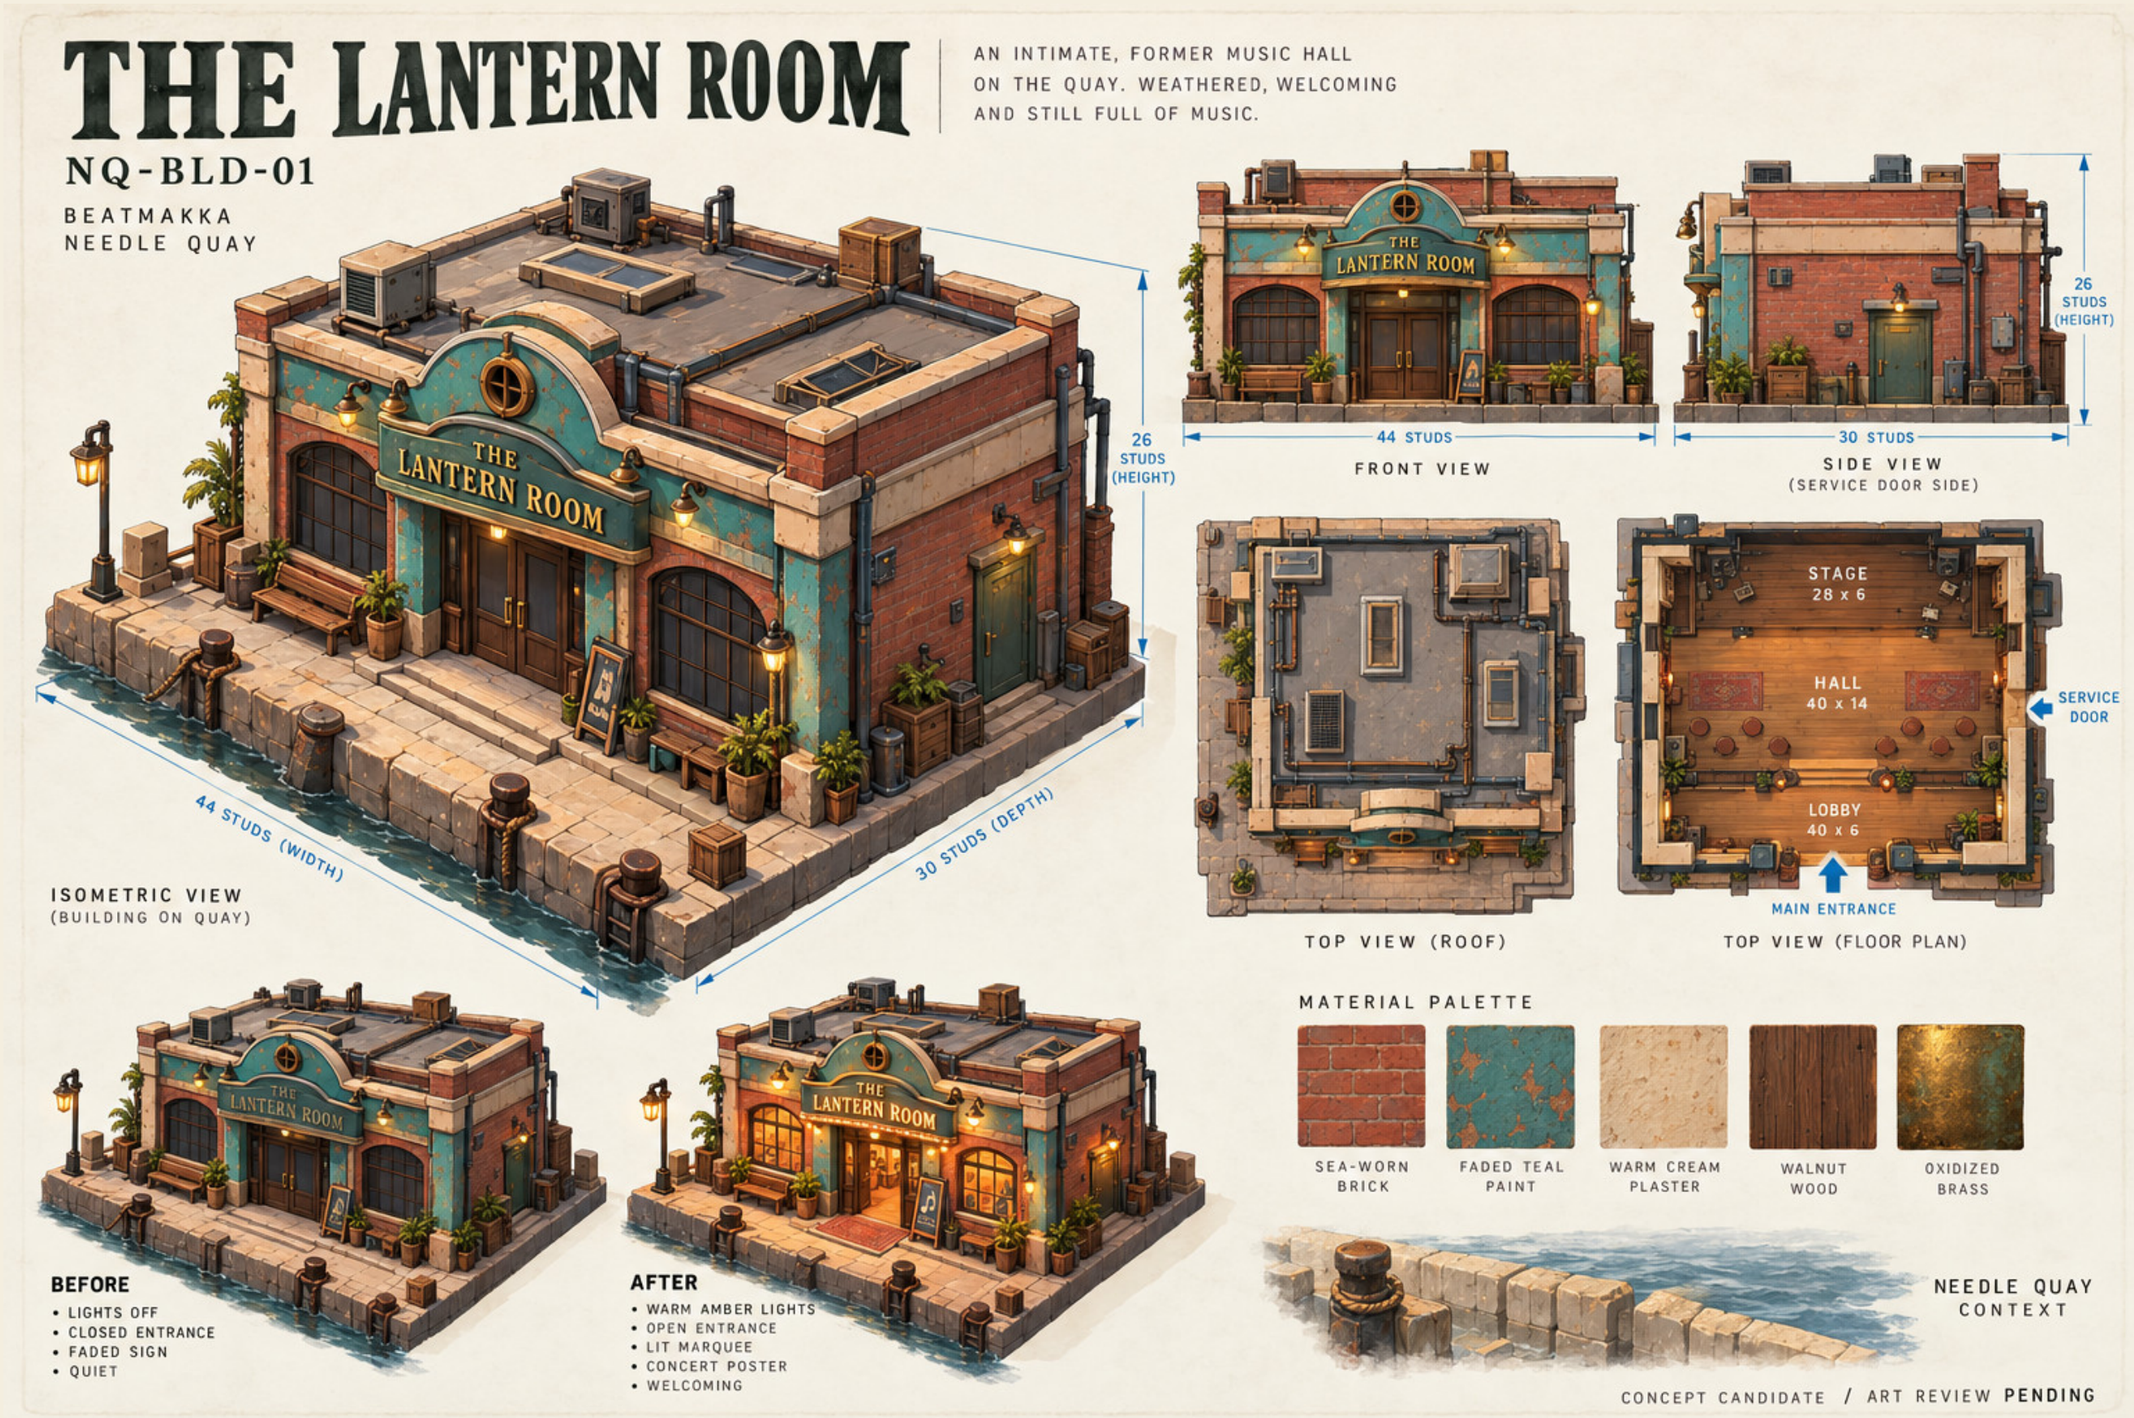
NQ-BLD-01 — The Lantern Room



NQ-BLD-01 / Production card

Contract field	Production handoff
Canonical / environment	Environment-specific building / NQ-BLD-01
Art status	Concept approved by user; production geometry acceptance pending
Layout envelope	44 × 30 × 26 studs W×D×H; floor-center layout pivot; front -Z
Canonical pivot	Exact asset pivot to be authored; layout proxy is not a DCC acceptance receipt
Access	Lobby, compact hall and stage
Position X / Z	[0, 95]; proposed district placement
NPC	Ronan Wren
Quest links	NQ-Q11, NQ-Q12
Graphics	NQ-SGN-01; independent PNG/SVG export in graphics library
Optimization	Reuse shared palette/material families and modules. Simple collision proxies; decorative detail non-collidable. Triangle budgets not invented.
Moving / light state	Before/After uses the same shell with separate lights/dressing. Exact door/fan/antenna targets require deterministic construction.
Deliverable boundaries	Concept + local native blockout + Blender/GLB + front/side/top/neutral renders. See full production candidate pages below. LOD device profiling, final UV bake, Studio/runtime acceptance pending.

NQ-BLD-02 — Needle Records

NEEDLE RECORDS

NQ-BLD-02 / CANONICAL H06

RECORD SHOP · NEEDLE QUAY

Proposed district concept. Canonical H06 dimensions are preserved separately; envelope fit requires review.

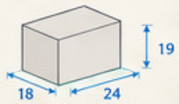
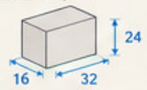
DIMENSIONS (DISTRICT ENVELOPE)

WIDTH: 24 STUDS
DEPTH: 18 STUDS
HEIGHT: 19 STUDS



CANONICAL H06 (UNRESOLVED FIT)

WIDTH: 32 STUDS
DEPTH: 16 STUDS
HEIGHT: 24 STUDS



Canonical 32 x 16 x 24; proposed envelope 24 x 18 x 19. Resizing is not approved.

NOTES

- Existing canonical H06 reinterpreted within district envelope (24 x 18 x 19).
- Canonical H06 dimensions are preserved separately; envelope fit requires review.
- Same structure before and after (lighting and dressing change only).
- Concept art only – not engineering-certified orthographics.

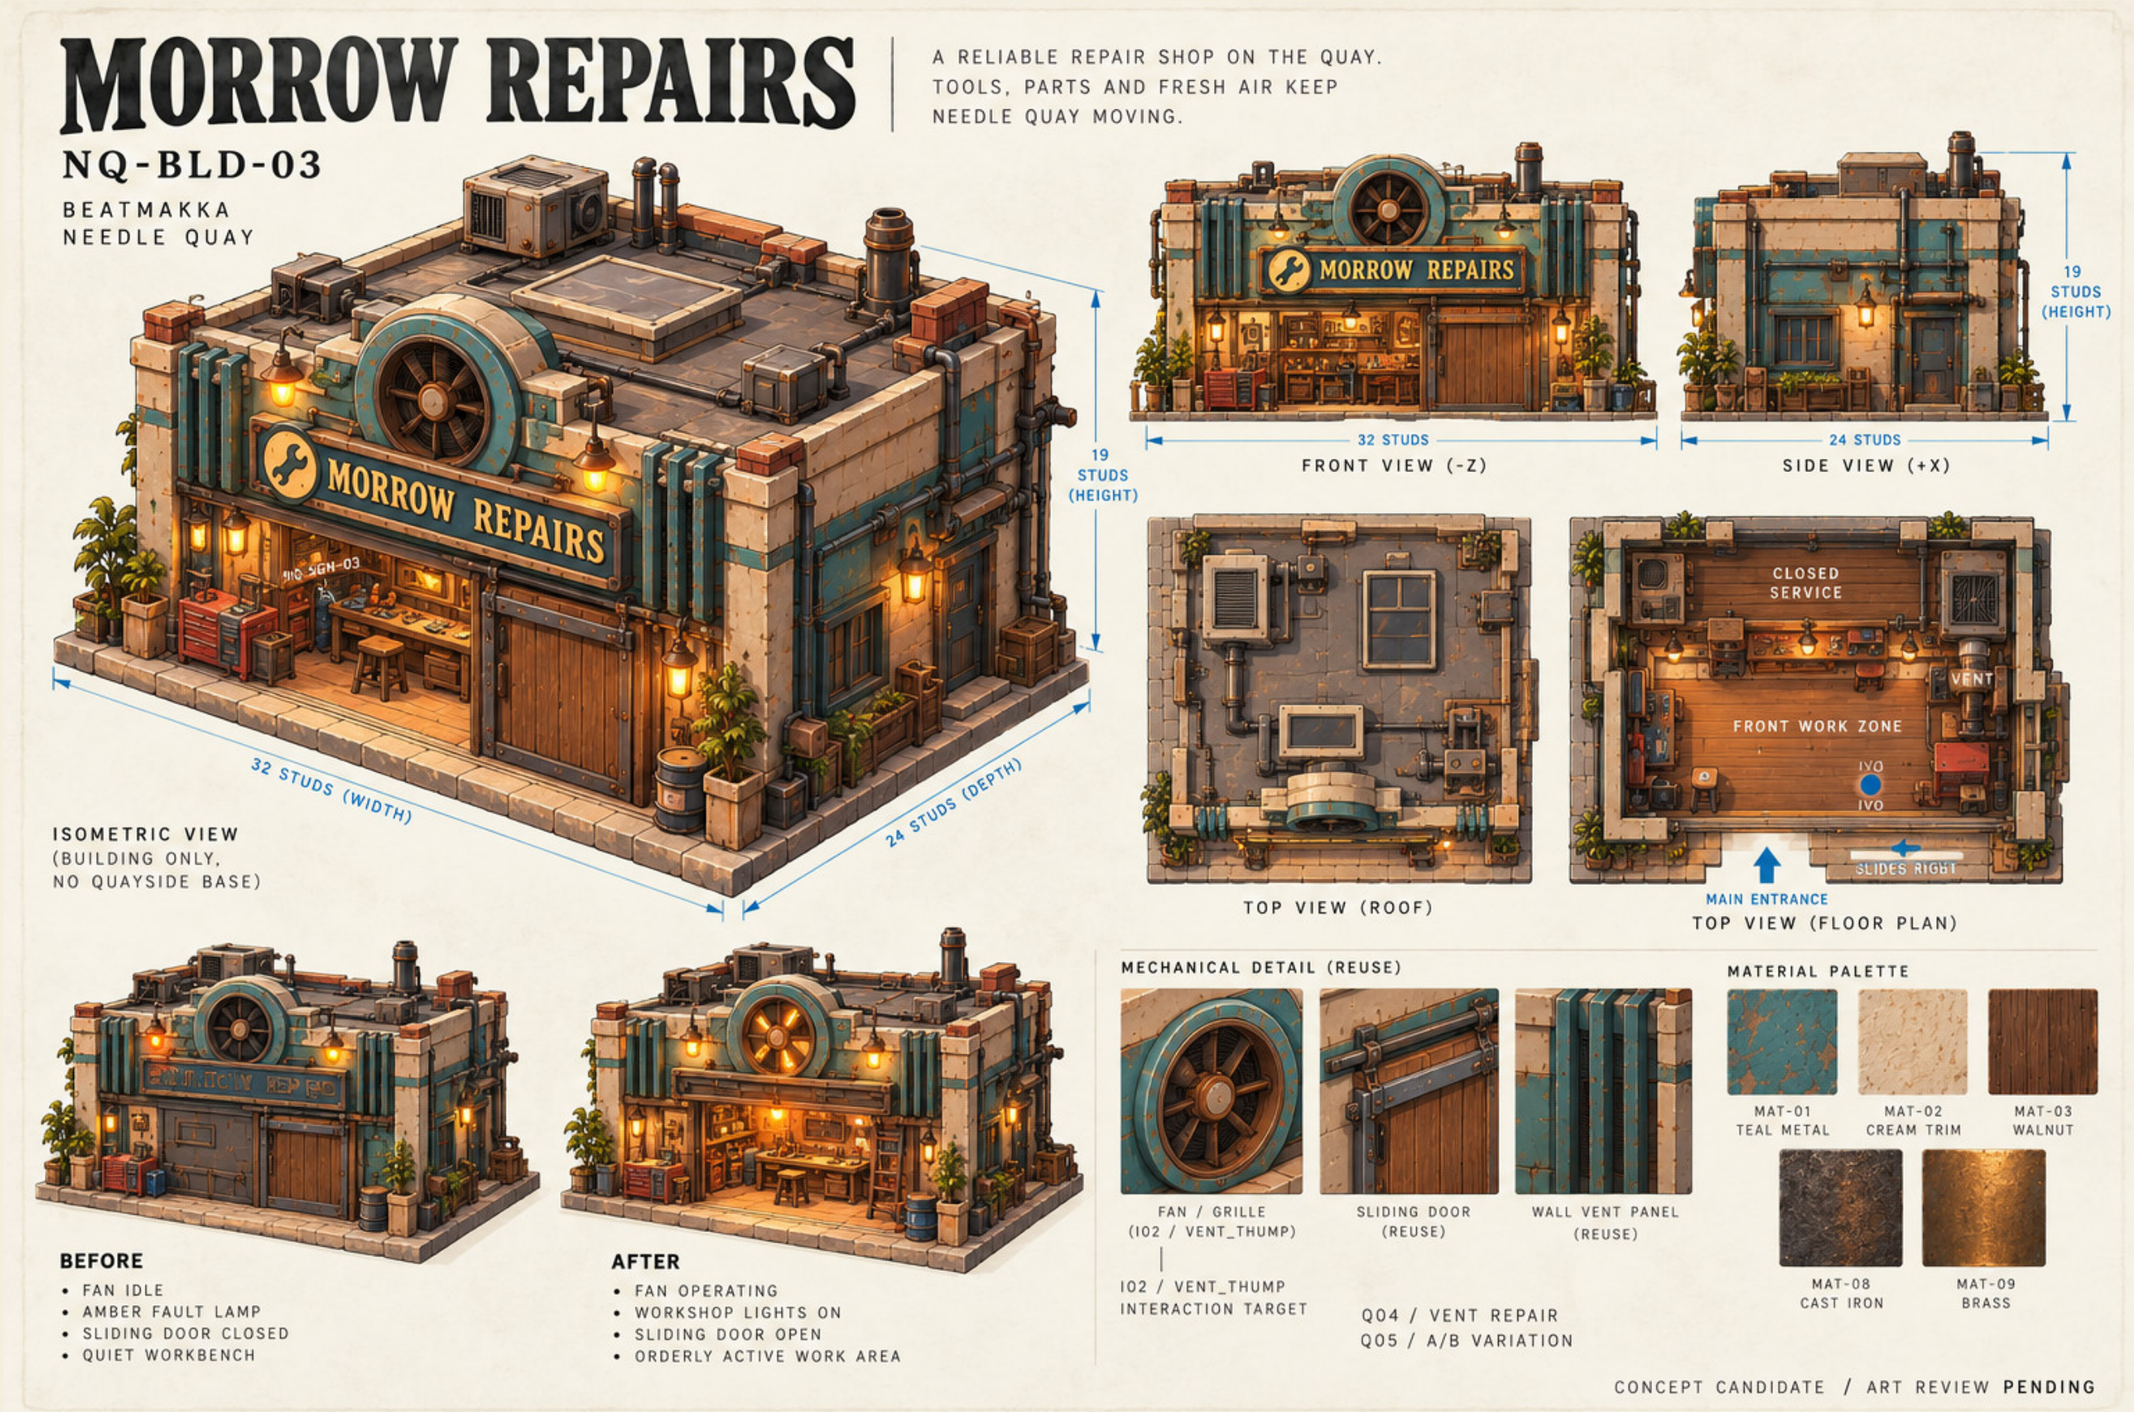
NEEDLE QUAY | NQ-BLD-02 | NEEDLE RECORDS

CONCEPT CANDIDATE / ART REVIEW PENDING

NQ-BLD-02 / Production card

Contract field	Production handoff
Canonical / environment	H06 / NQ-BLD-02
Art status	Concept approved by user; production geometry acceptance pending
Layout envelope	32 × 16 × 24 studs W×D×H; floor-center layout pivot; front -Z
Canonical pivot	Front-left floor grid corner
Access	Accessible compact sales floor; upper floor decorative
Position X / Z	[-60, 0]; proposed district placement
NPC	Naya
Quest links	NQ-Q06, NQ-Q07
Graphics	NQ-SGN-02; independent PNG/SVG export in graphics library
Optimization	Reuse shared palette/material families and modules. Simple collision proxies; decorative detail non-collidable. Triangle budgets not invented.
Moving / light state	Before/After uses the same shell with separate lights/dressing. Exact door/fan/antenna targets require deterministic construction.
Deliverable boundaries	Concept + local native blockout + Blender/GLB + front/side/top/neutral renders. See full production candidate pages below. LOD device profiling, final UV bake, Studio/runtime acceptance pending.

NQ-BLD-03 — Morrow Repairs



NQ-BLD-03 / Production card

Contract field	Production handoff
Canonical / environment	Environment-specific building / NQ-BLD-03
Art status	Concept approved by user; production geometry acceptance pending
Layout envelope	32 × 24 × 19 studs W×D×H; floor-center layout pivot; front -Z
Canonical pivot	Exact asset pivot to be authored; layout proxy is not a DCC acceptance receipt
Access	Front work area and one working mechanism
Position X / Z	[-130, -105]; proposed district placement
NPC	Ivo
Quest links	NQ-Q04, NQ-Q05
Graphics	NQ-SGN-03; independent PNG/SVG export in graphics library
Optimization	Reuse shared palette/material families and modules. Simple collision proxies; decorative detail non-collidable. Triangle budgets not invented.
Moving / light state	Before/After uses the same shell with separate lights/dressing. Exact door/fan/antenna targets require deterministic construction.
Deliverable boundaries	Concept + local native blockout + Blender/GLB + front/side/top/neutral renders. See full production candidate pages below. LOD device profiling, final UV bake, Studio/runtime acceptance pending.

NQ-BLD-04 — Harbor Market Hall

NQ-BLD-04 / Production card

Contract field	Production handoff
Canonical / environment	Environment-specific building / NQ-BLD-04
Art status	Concept approved by user; production geometry acceptance pending
Layout envelope	48 × 30 × 16 studs W×D×H; floor-center layout pivot; front -Z
Canonical pivot	Exact asset pivot to be authored; layout proxy is not a DCC acceptance receipt
Access	Open ground level, four modular stalls
Position X / Z	[10, 0]; proposed district placement
NPC	Sana Bell, Naya
Quest links	NQ-Q08
Graphics	NQ-SGN-04; independent PNG/SVG export in graphics library
Optimization	Reuse shared palette/material families and modules. Simple collision proxies; decorative detail non-collidable. Triangle budgets not invented.
Moving / light state	Before/After uses the same shell with separate lights/dressing. Exact door/fan/antenna targets require deterministic construction.
Deliverable boundaries	Concept + local native blockout + Blender/GLB + front/side/top/neutral renders. See full production candidate pages below. LOD device profiling, final UV bake, Studio/runtime acceptance pending.

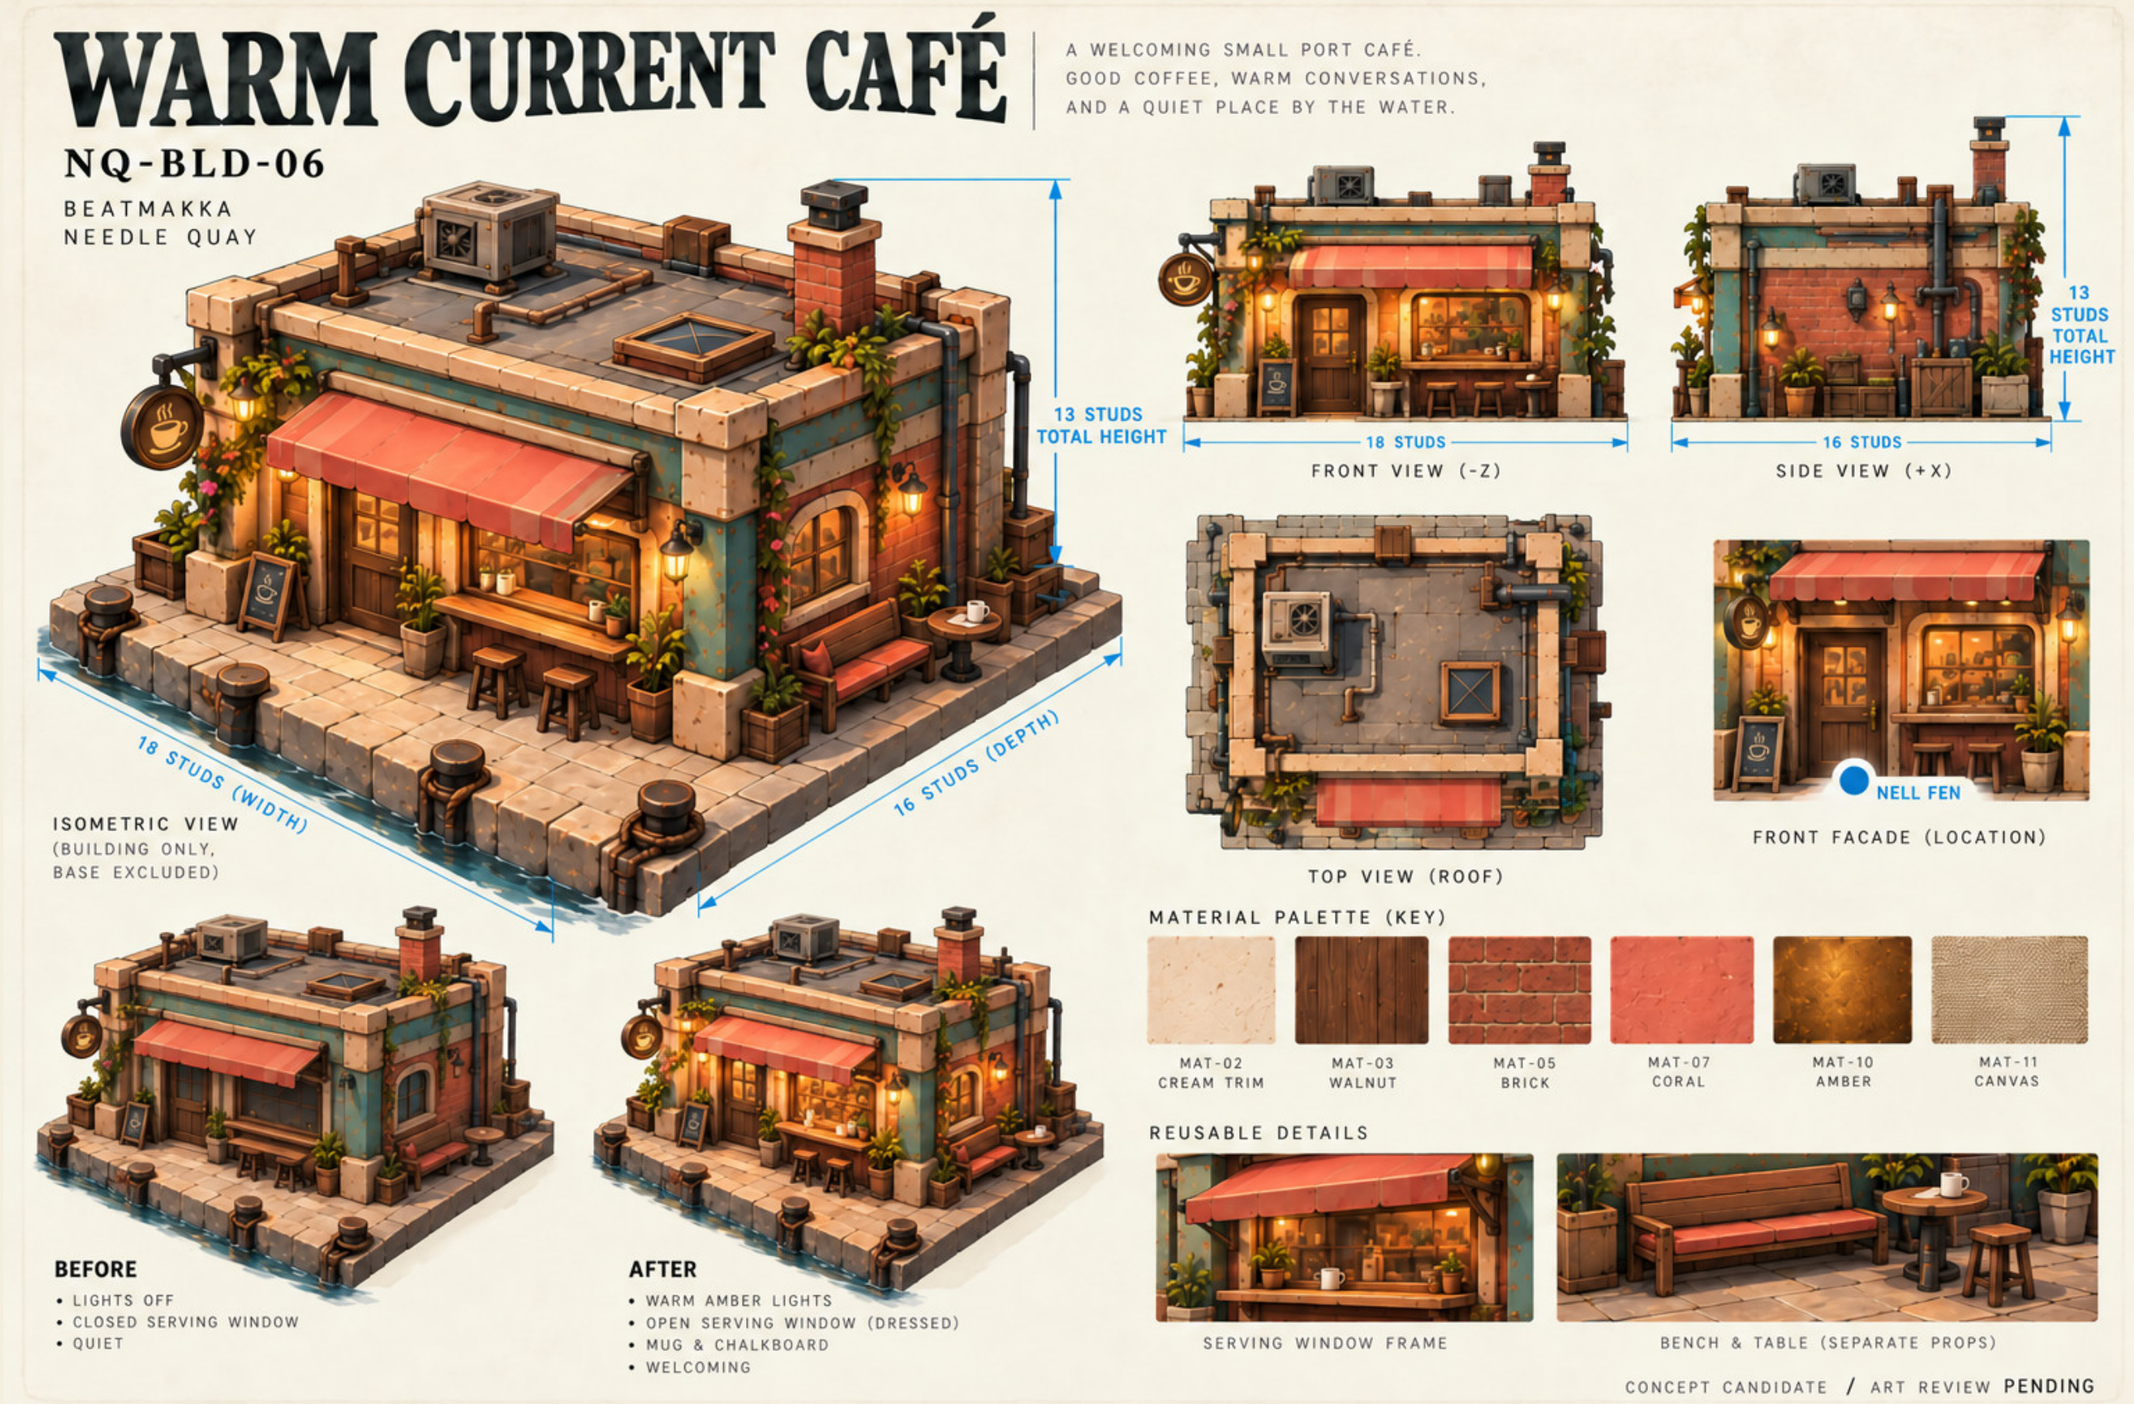
CONCEPT CANDIDATE / ART REVIEW **PENDING**

NQ-BLD-05 / Production card

Contract field	Production handoff
Canonical / environment	Environment-specific building / NQ-BLD-05
Art status	Concept approved by user; production geometry acceptance pending
Layout envelope	16 × 16 × 26 studs W×D×H; floor-center layout pivot; front -Z
Canonical pivot	Exact asset pivot to be authored; layout proxy is not a DCC acceptance receipt
Access	Exterior and one accessible control desk
Position X / Z	[175, 95]; proposed district placement
NPC	Mica
Quest links	NQ-Q09, NQ-Q10
Graphics	NQ-SGN-05; independent PNG/SVG export in graphics library
Optimization	Reuse shared palette/material families and modules. Simple collision proxies; decorative detail non-collidable. Triangle budgets not invented.
Moving / light state	Before/After uses the same shell with separate lights/dressing. Exact door/fan/antenna targets require deterministic construction.
Deliverable boundaries	Concept + local native blockout + Blender/GLB + front/side/top/neutral renders. See full production candidate pages below. LOD device profiling, final UV bake, Studio/runtime acceptance pending.

NQ-BLD-06 — Warm Current Café



NQ-BLD-06 / Production card

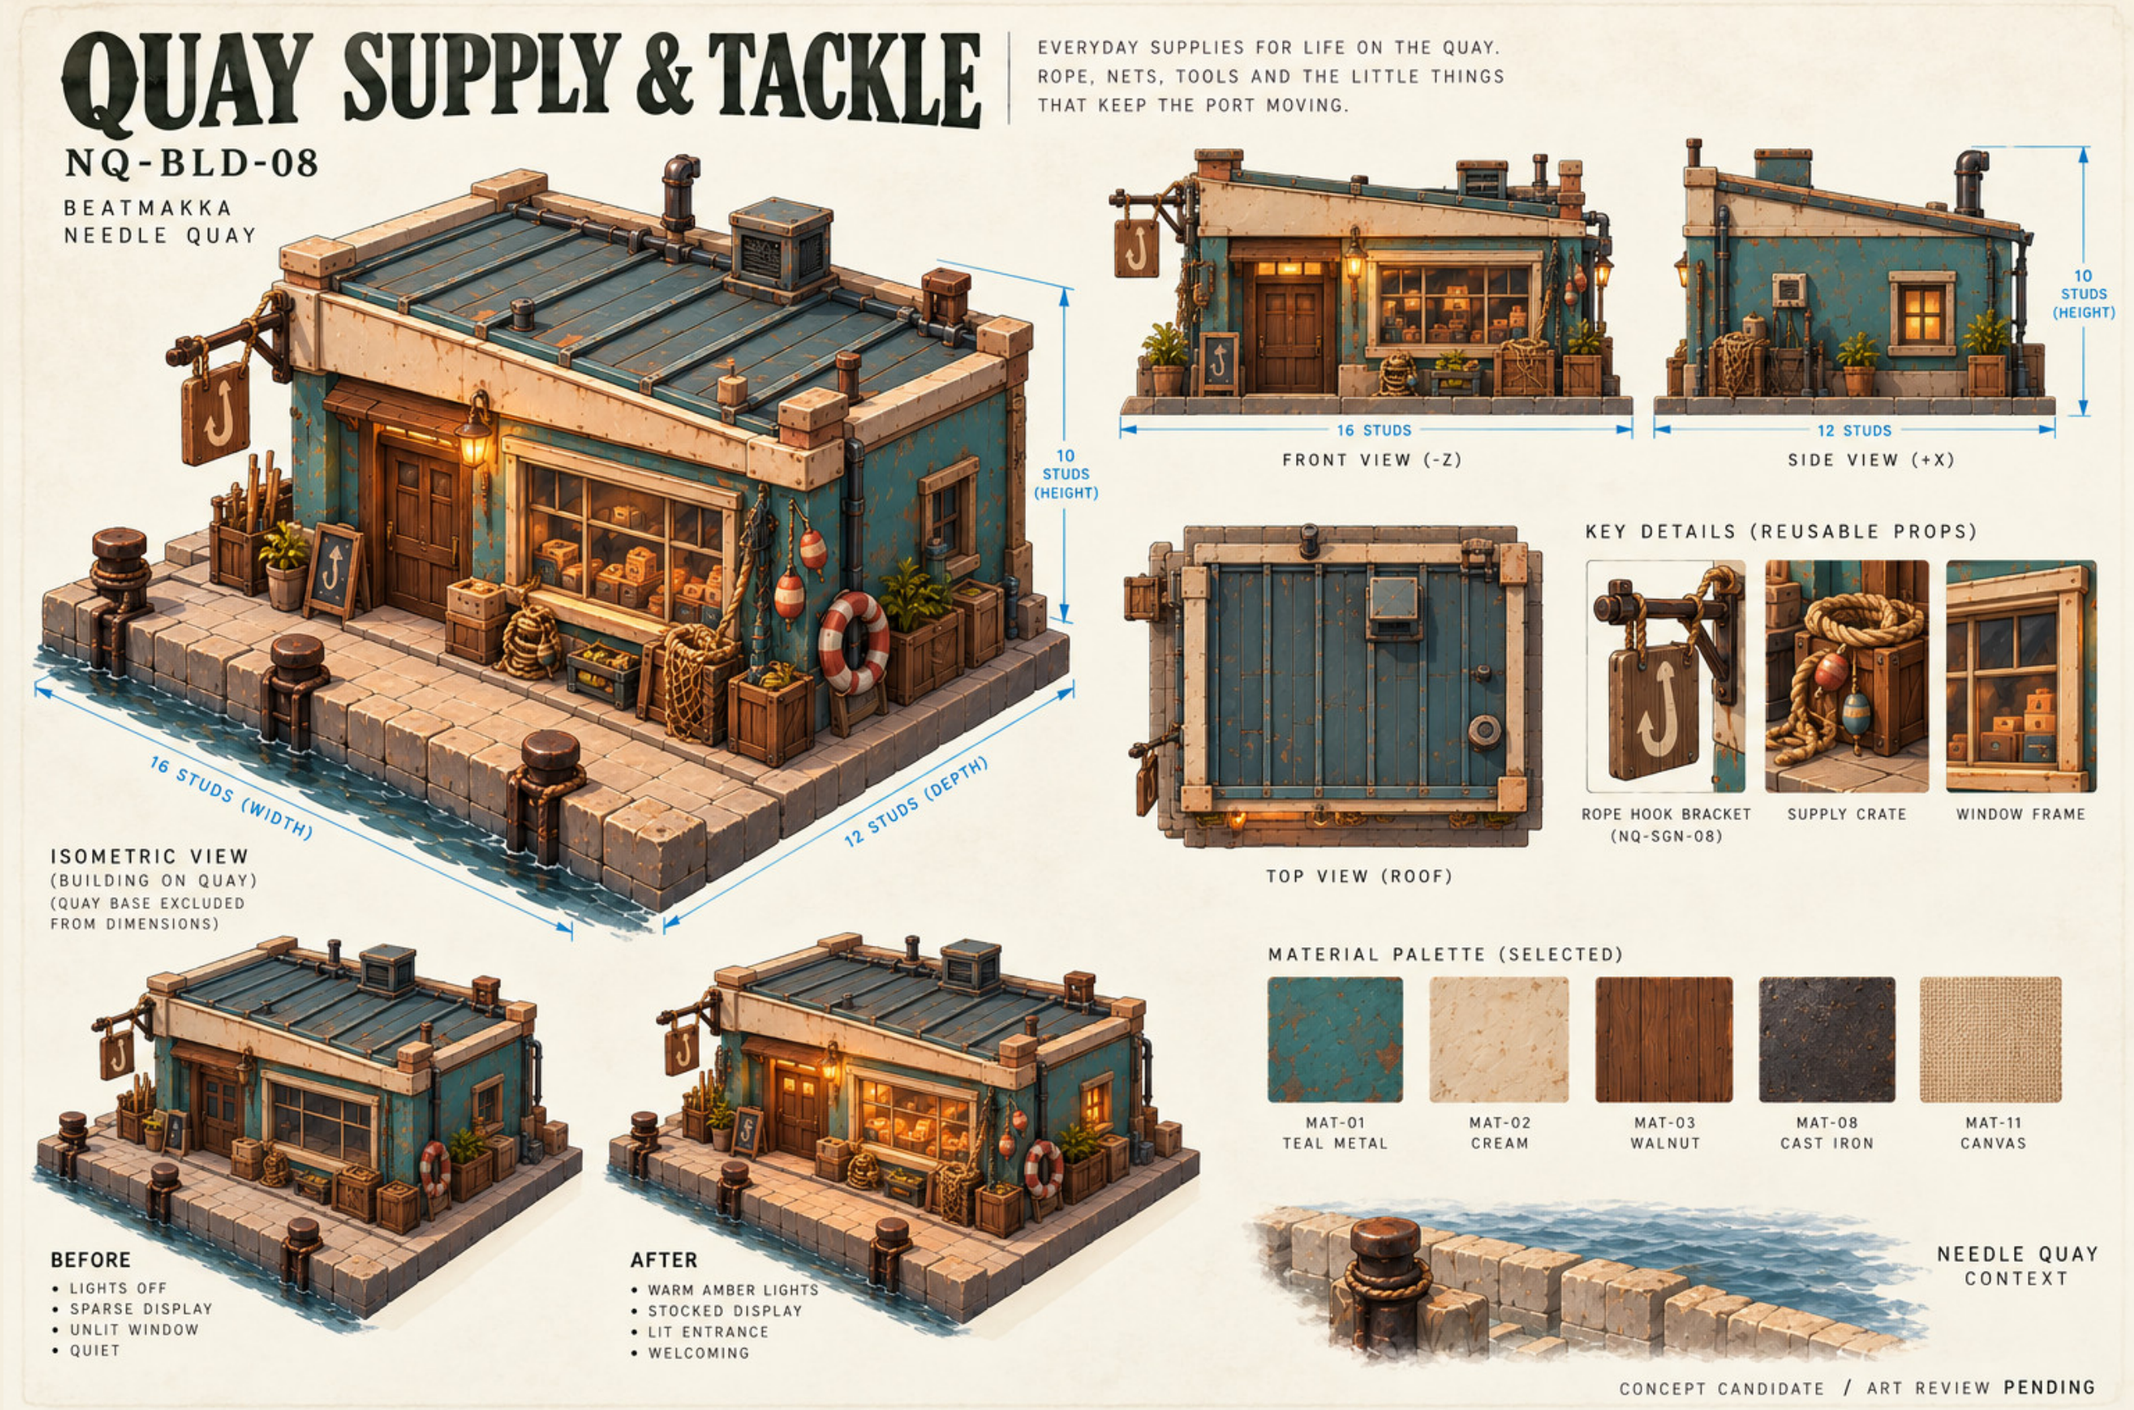
Contract field	Production handoff
Canonical / environment	Environment-specific building / NQ-BLD-06
Art status	Concept approved by user; production geometry acceptance pending
Layout envelope	18 × 16 × 13 studs W×D×H; floor-center layout pivot; front -Z
Canonical pivot	Exact asset pivot to be authored; layout proxy is not a DCC acceptance receipt
Access	Facade only; no full demo interior
Position X / Z	[-65, 90]; proposed district placement
NPC	Nell Fen
Quest links	Supporting facade / local interaction only
Graphics	NQ-SGN-06; independent PNG/SVG export in graphics library
Optimization	Reuse shared palette/material families and modules. Simple collision proxies; decorative detail non-collidable. Triangle budgets not invented.
Moving / light state	Before/After uses the same shell with separate lights/dressing. Exact door/fan/antenna targets require deterministic construction.
Deliverable boundaries	Concept + local native blockout + Blender/GLB + front/side/top/neutral renders. See full production candidate pages below. LOD device profiling, final UV bake, Studio/runtime acceptance pending.

NQ-BLD-07 — North Slip Ferry Office

NQ-BLD-07 / Production card

Contract field	Production handoff
Canonical / environment	Environment-specific building / NQ-BLD-07
Art status	Concept approved by user; production geometry acceptance pending
Layout envelope	18 × 12 × 11 studs W×D×H; floor-center layout pivot; front -Z
Canonical pivot	Exact asset pivot to be authored; layout proxy is not a DCC acceptance receipt
Access	Facade only; no full demo interior
Position X / Z	[-175, 90]; proposed district placement
NPC	No new named NPC assigned
Quest links	Supporting facade / local interaction only
Graphics	NQ-SGN-07; independent PNG/SVG export in graphics library
Optimization	Reuse shared palette/material families and modules. Simple collision proxies; decorative detail non-collidable. Triangle budgets not invented.
Moving / light state	Before/After uses the same shell with separate lights/dressing. Exact door/fan/antenna targets require deterministic construction.
Deliverable boundaries	Concept + local native blockout + Blender/GLB + front/side/top/neutral renders. See full production candidate pages below. LOD device profiling, final UV bake, Studio/runtime acceptance pending.

NQ-BLD-08 — Quay Supply & Tackle



NQ-BLD-08 / Production card

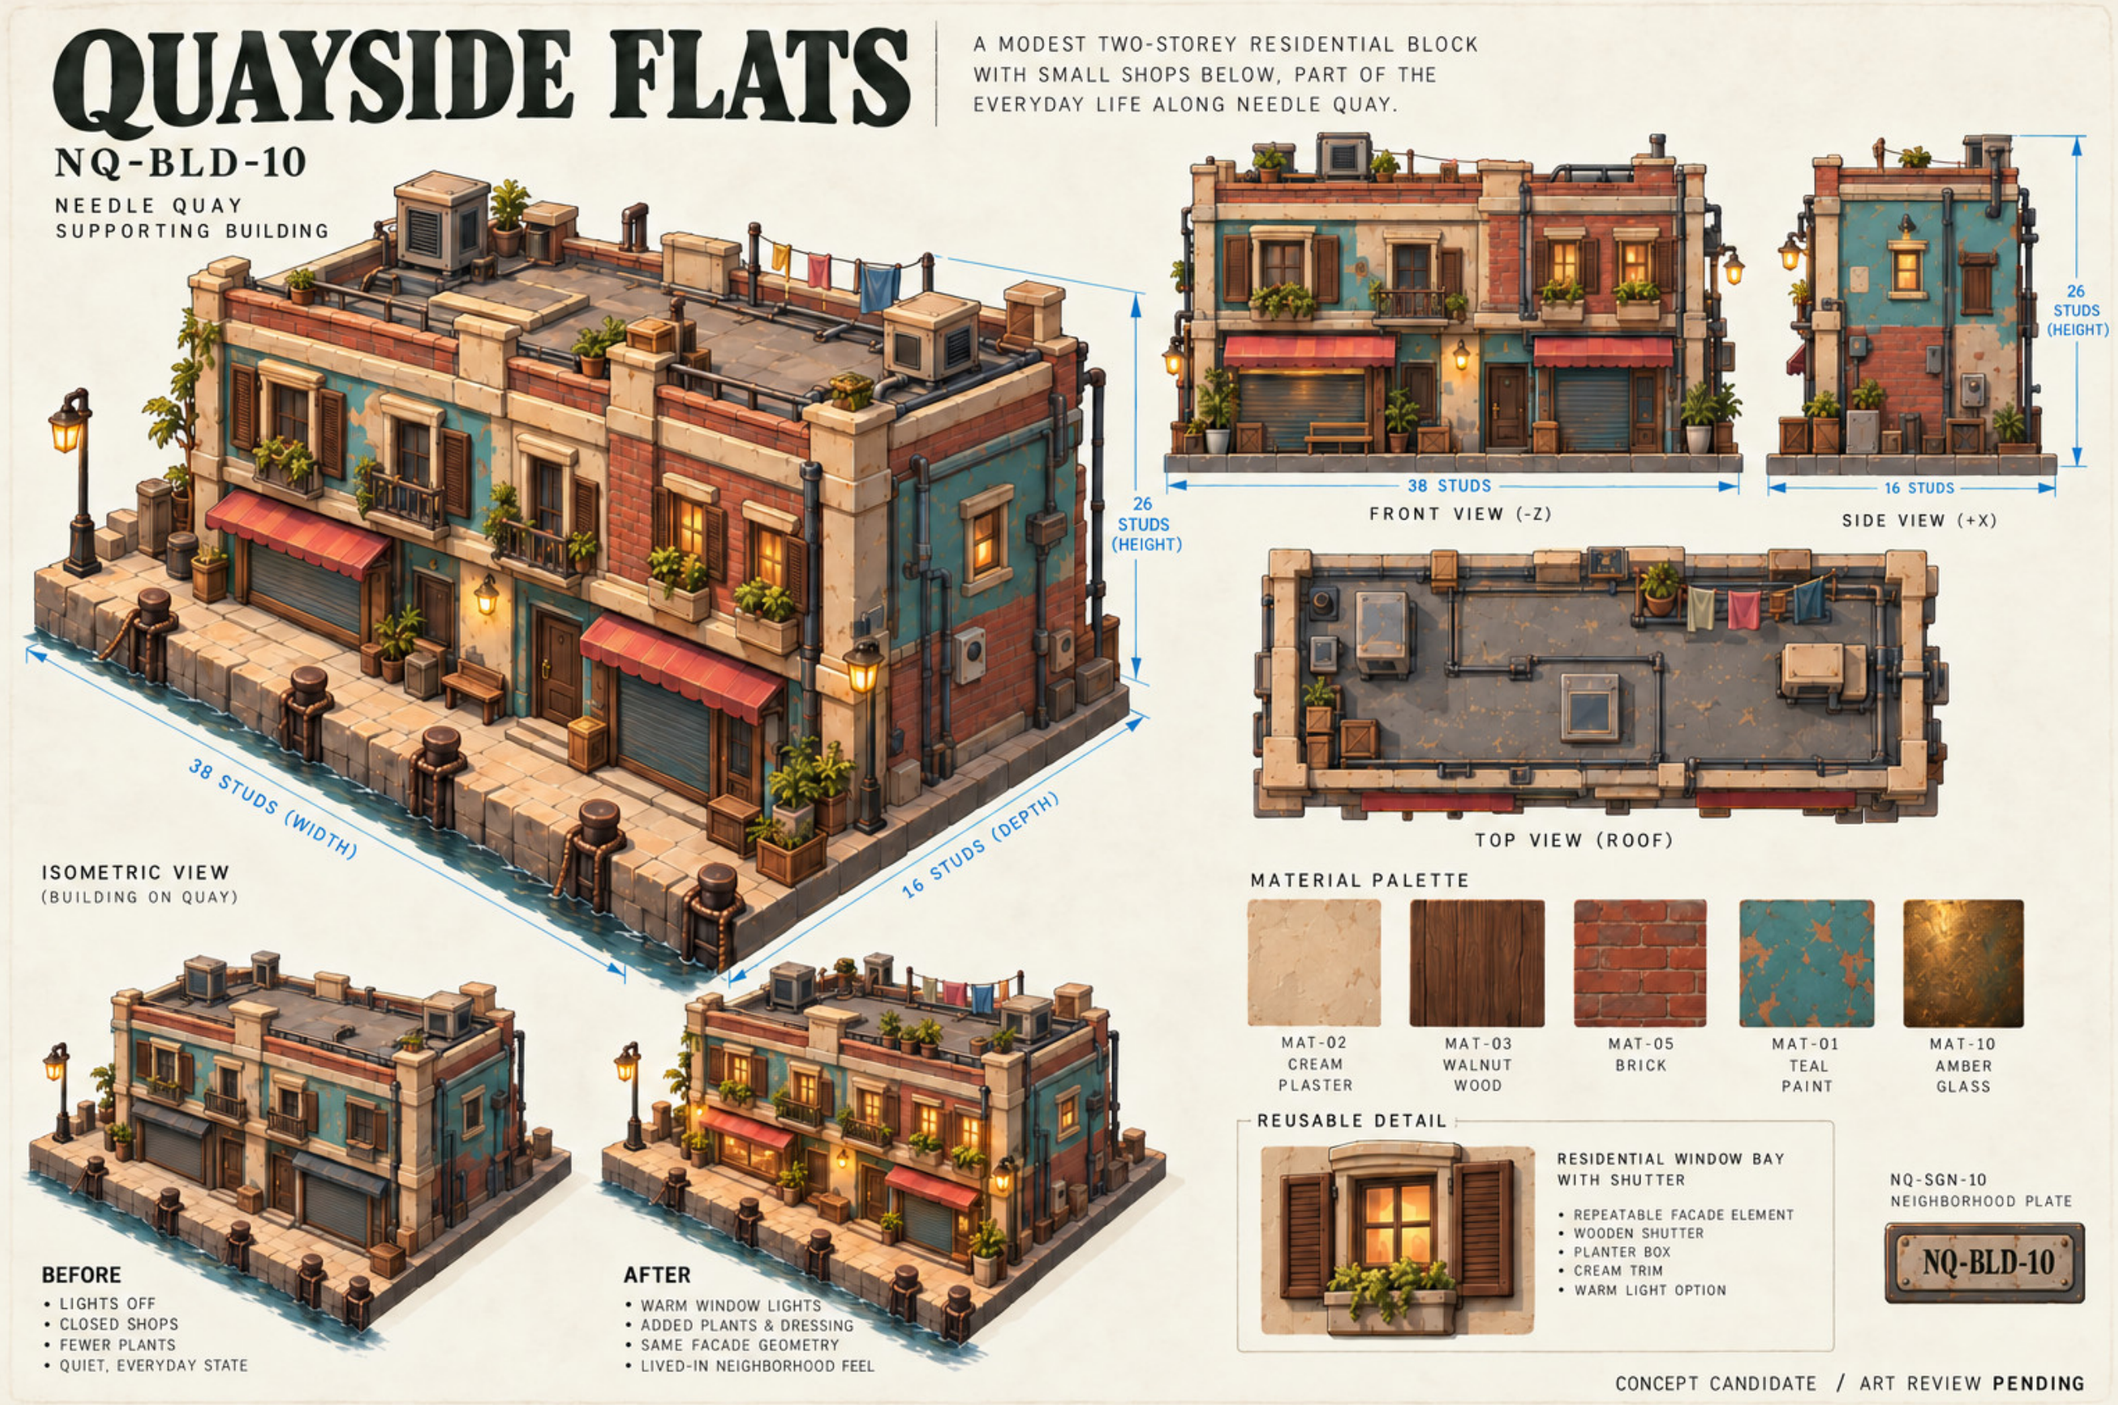
Contract field	Production handoff
Canonical / environment	Environment-specific building / NQ-BLD-08
Art status	Concept approved by user; production geometry acceptance pending
Layout envelope	16 × 12 × 10 studs W×D×H; floor-center layout pivot; front -Z
Canonical pivot	Exact asset pivot to be authored; layout proxy is not a DCC acceptance receipt
Access	Facade only; no full demo interior
Position X / Z	[-175, 0]; proposed district placement
NPC	Tori
Quest links	NQ-Q01, NQ-Q02, NQ-Q03
Graphics	NQ-SGN-08; independent PNG/SVG export in graphics library
Optimization	Reuse shared palette/material families and modules. Simple collision proxies; decorative detail non-collidable. Triangle budgets not invented.
Moving / light state	Before/After uses the same shell with separate lights/dressing. Exact door/fan/antenna targets require deterministic construction.
Deliverable boundaries	Concept + local native blockout + Blender/GLB + front/side/top/neutral renders. See full production candidate pages below. LOD device profiling, final UV bake, Studio/runtime acceptance pending.

NQ-BLD-09 — Cinder Cold Storage

NQ-BLD-09 / Production card

Contract field	Production handoff
Canonical / environment	Environment-specific building / NQ-BLD-09
Art status	Concept approved by user; production geometry acceptance pending
Layout envelope	34 × 20 × 16 studs W×D×H; floor-center layout pivot; front -Z
Canonical pivot	Exact asset pivot to be authored; layout proxy is not a DCC acceptance receipt
Access	Facade only; no full demo interior
Position X / Z	[-80, -105]; proposed district placement
NPC	No new named NPC assigned
Quest links	NQ-Q04, NQ-Q05
Graphics	NQ-SGN-09; independent PNG/SVG export in graphics library
Optimization	Reuse shared palette/material families and modules. Simple collision proxies; decorative detail non-collidable. Triangle budgets not invented.
Moving / light state	Before/After uses the same shell with separate lights/dressing. Exact door/fan/antenna targets require deterministic construction.
Deliverable boundaries	Concept + local native blockout + Blender/GLB + front/side/top/neutral renders. See full production candidate pages below. LOD device profiling, final UV bake, Studio/runtime acceptance pending.

NQ-BLD-10 — Quayside Flats



NQ-BLD-10 / Production card

Contract field	Production handoff
Canonical / environment	Environment-specific building / NQ-BLD-10
Art status	Concept approved by user; production geometry acceptance pending
Layout envelope	38 × 16 × 26 studs W×D×H; floor-center layout pivot; front -Z
Canonical pivot	Exact asset pivot to be authored; layout proxy is not a DCC acceptance receipt
Access	Facade only; no full demo interior
Position X / Z	[65, -105]; proposed district placement
NPC	No new named NPC assigned
Quest links	Supporting facade / local interaction only
Graphics	NQ-SGN-10; independent PNG/SVG export in graphics library
Optimization	Reuse shared palette/material families and modules. Simple collision proxies; decorative detail non-collidable. Triangle budgets not invented.
Moving / light state	Before/After uses the same shell with separate lights/dressing. Exact door/fan/antenna targets require deterministic construction.
Deliverable boundaries	Concept + local native blockout + Blender/GLB + front/side/top/neutral renders. See full production candidate pages below. LOD device profiling, final UV bake, Studio/runtime acceptance pending.

NQ-BLD-11 — Tidewash Laundry

NQ-BLD-11 / Production card

Contract field	Production handoff
Canonical / environment	Environment-specific building / NQ-BLD-11
Art status	Concept approved by user; production geometry acceptance pending
Layout envelope	18 × 16 × 14 studs W×D×H; floor-center layout pivot; front -Z
Canonical pivot	Exact asset pivot to be authored; layout proxy is not a DCC acceptance receipt
Access	Facade only; no full demo interior
Position X / Z	[145, -105]; proposed district placement
NPC	No new named NPC assigned
Quest links	Supporting facade / local interaction only
Graphics	NQ-SGN-11; independent PNG/SVG export in graphics library
Optimization	Reuse shared palette/material families and modules. Simple collision proxies; decorative detail non-collidable. Triangle budgets not invented.
Moving / light state	Before/After uses the same shell with separate lights/dressing. Exact door/fan/antenna targets require deterministic construction.
Deliverable boundaries	Concept + local native blockout + Blender/GLB + front/side/top/neutral renders. See full production candidate pages below. LOD device profiling, final UV bake, Studio/runtime acceptance pending.

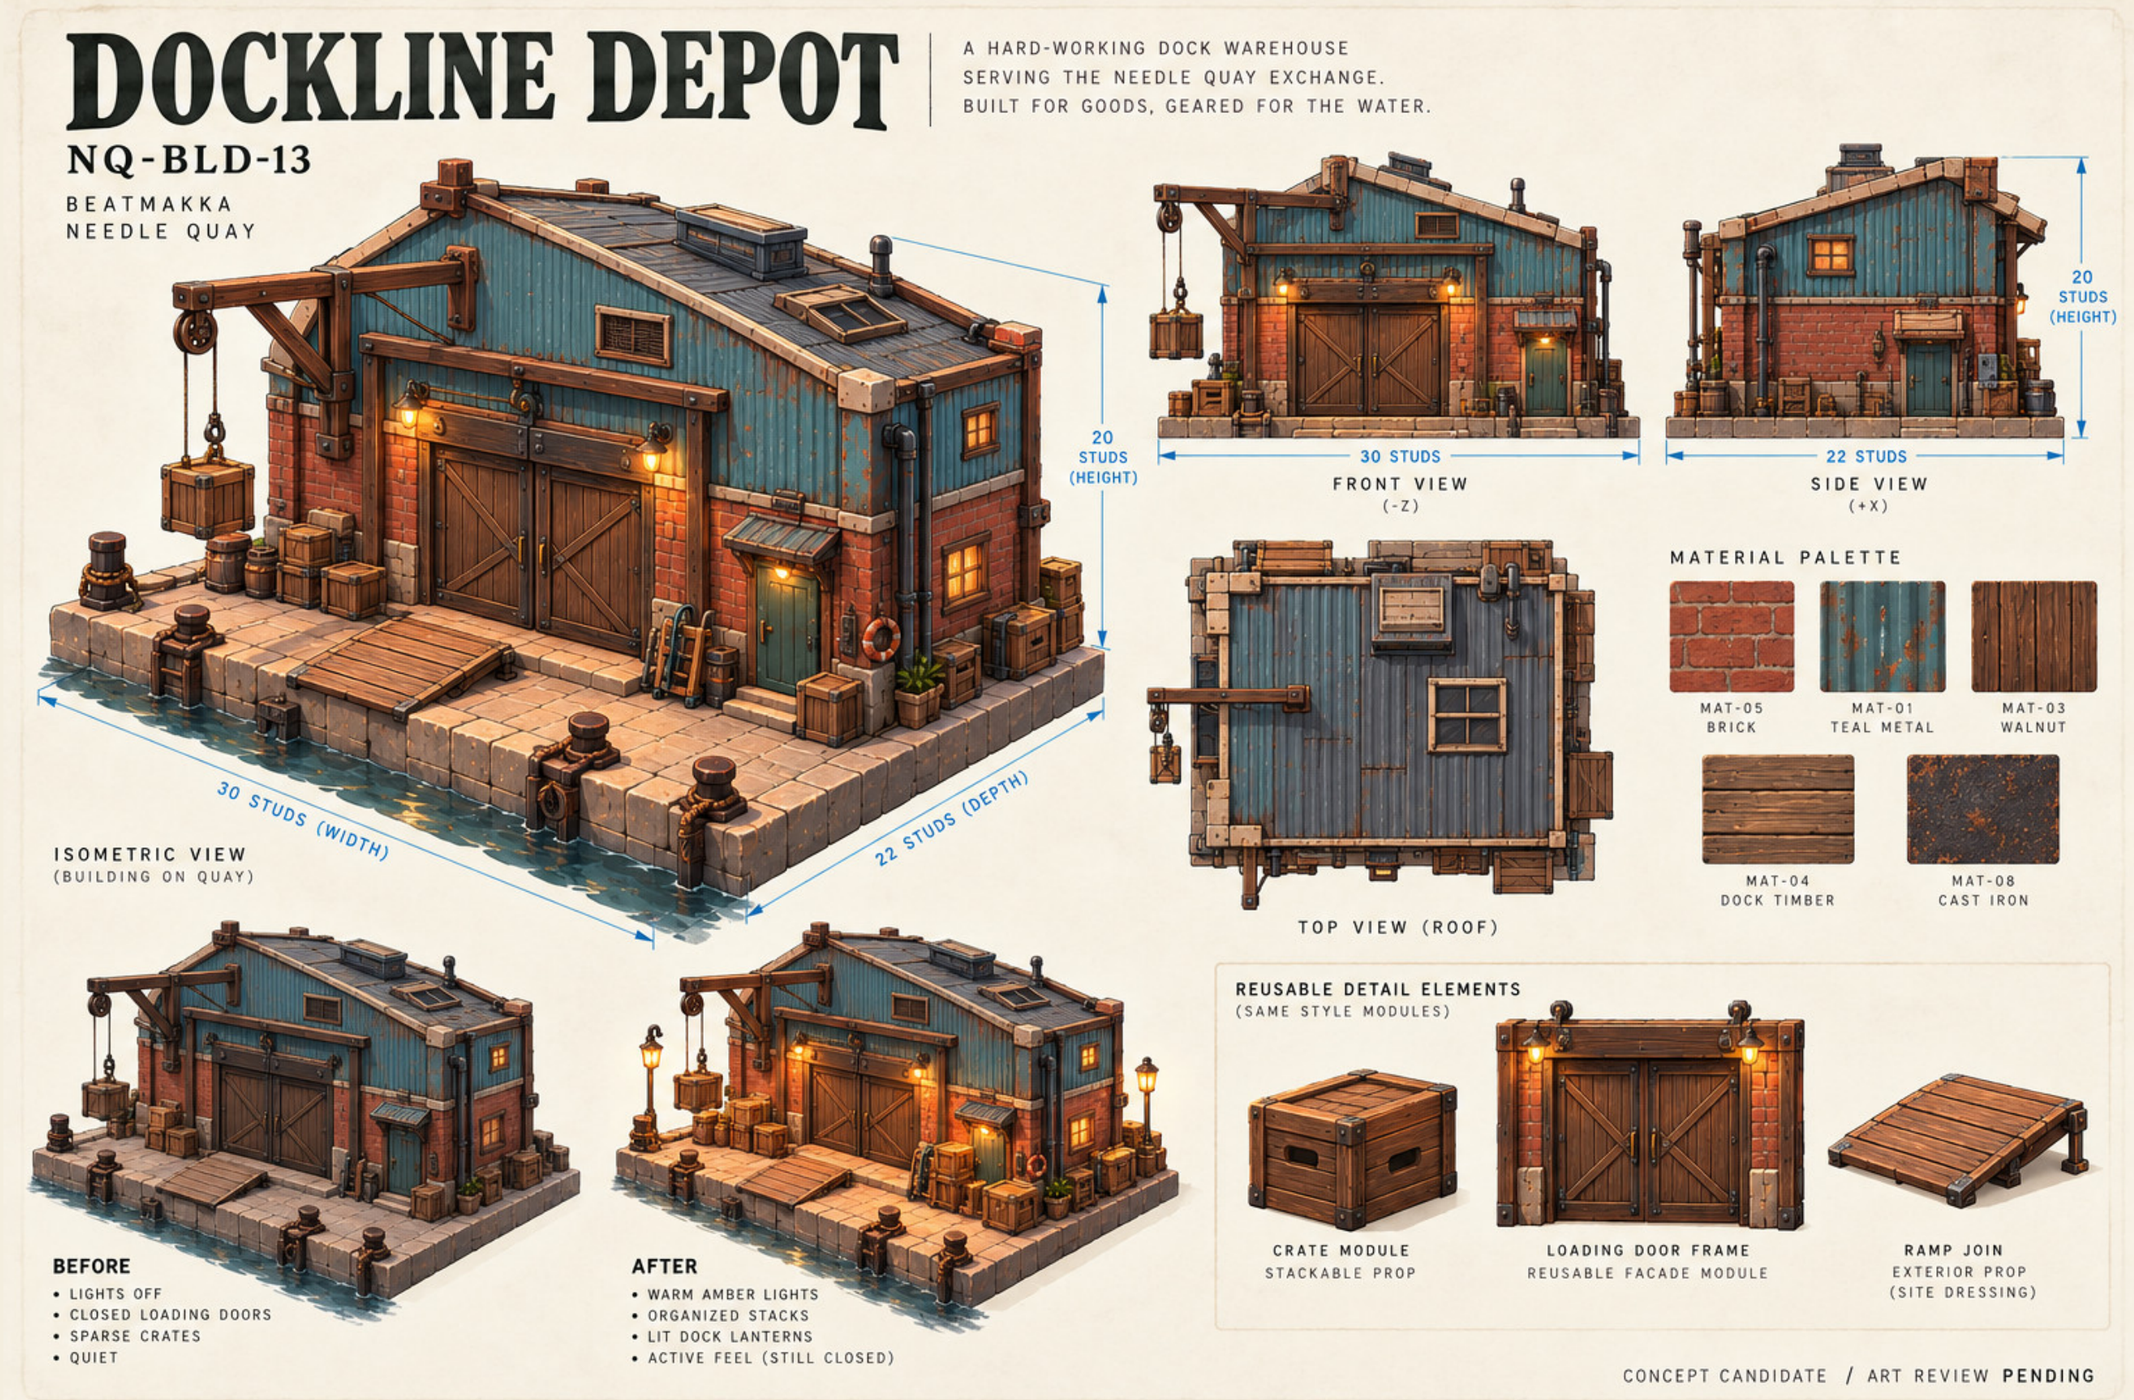
CONCEPT CANDIDATE / ART REVIEW **PENDING**

NQ-BLD-12 / Production card

Contract field	Production handoff
Canonical / environment	Environment-specific building / NQ-BLD-12
Art status	Concept approved by user; production geometry acceptance pending
Layout envelope	12 × 12 × 11 studs W×D×H; floor-center layout pivot; front -Z
Canonical pivot	Exact asset pivot to be authored; layout proxy is not a DCC acceptance receipt
Access	Facade only; no full demo interior
Position X / Z	[140, 95]; proposed district placement
NPC	Mica
Quest links	NQ-Q10
Graphics	NQ-SGN-12; independent PNG/SVG export in graphics library
Optimization	Reuse shared palette/material families and modules. Simple collision proxies; decorative detail non-collidable. Triangle budgets not invented.
Moving / light state	Before/After uses the same shell with separate lights/dressing. Exact door/fan/antenna targets require deterministic construction.
Deliverable boundaries	Concept + local native blockout + Blender/GLB + front/side/top/neutral renders. See full production candidate pages below. LOD device profiling, final UV bake, Studio/runtime acceptance pending.

NQ-BLD-13 — Dockline Depot



NQ-BLD-13 / Production card

Contract field	Production handoff
Canonical / environment	Environment-specific building / NQ-BLD-13
Art status	Concept approved by user; production geometry acceptance pending
Layout envelope	30 × 22 × 20 studs W×D×H; floor-center layout pivot; front -Z
Canonical pivot	Exact asset pivot to be authored; layout proxy is not a DCC acceptance receipt
Access	Facade only; no full demo interior
Position X / Z	[-140, 0]; proposed district placement
NPC	Tori
Quest links	NQ-Q01, NQ-Q02, NQ-Q03
Graphics	NQ-SGN-13; independent PNG/SVG export in graphics library
Optimization	Reuse shared palette/material families and modules. Simple collision proxies; decorative detail non-collidable. Triangle budgets not invented.
Moving / light state	Before/After uses the same shell with separate lights/dressing. Exact door/fan/antenna targets require deterministic construction.
Deliverable boundaries	Concept + local native blockout + Blender/GLB + front/side/top/neutral renders. See full production candidate pages below. LOD device profiling, final UV bake, Studio/runtime acceptance pending.

Четыре стоянки / Four authored parking venues

ID	Venue	Building links	NPC	Discovery
P1 / NQ-STOP-01	Dockside Exchange	NQ-BLD-08, NQ-BLD-13	Tori	I01
P2 / NQ-STOP-02	Repair Alley	NQ-BLD-03, NQ-BLD-09	Ivo	I02
P3 / NQ-STOP-03	Vinyl Market	NQ-BLD-02, NQ-BLD-04	Naya, Sana Bell	Music sorting / shelf
P4 / NQ-STOP-04	Breakwater Steps	NQ-BLD-05, NQ-BLD-12	Mica	I03

Парковочный clearance 28×18 studs; LoopVan proxy 22×9×10 (длина/ширина/высота). Свободный путь минимум 6 studs — цель для avatar review. Финальный клуб NQ-BLD-01 входит в 13 зданий; он не четырнадцатое здание и не пятая парковка.

Никакой новой физики автомобиля, VanService, владения, переходов или сохранения профилей этот blockout не реализует. Музыкальные станции и старые ProfileStore contracts сохраняются.

Семь NPC / Identity and silhouette briefs

Name	Location	Silhouette / role	Production status
Tori	Dockside Exchange	Broad vest, rolled sleeves, tool belt; Practical dock master; hears work rhythms	Design + 15-bone rigid candidate; animation/import pending
Ivo	Morrow Repairs	Tall slim body, work jacket, goggles; Mechanic and sound experimenter	Design + 15-bone rigid candidate; animation/import pending
Naya	Needle Records	Oversized sweater, bright vinyl bag; Music archivist	Design + 15-bone rigid candidate; animation/import pending
Sana Bell	Harbor Market Hall	Large bag, order clipboard, coral accents; Market coordinator	Design + 15-bone rigid candidate; animation/import pending
Mica	Van and Signal House	Preserve H04 canonical robot design; Canonical guide; no Mika rename	Existing H04 identity; no redesign
Ronan Wren	The Lantern Room	Long coat, keys, subdued tones, tired posture; Keeper of the Pause; disillusioned host, not enemy	Design + 15-bone rigid candidate; animation/import pending
Nell Fen	Warm Current Café	Apron, broad silhouette, mug and notes; Cafe host and local news	Design + 15-bone rigid candidate; animation/import pending

Квестовый production register / Q00–Q12

ID	Quest	NPC	Result
NQ-Q00	The Van Arrives	Mica	Meet the studio van
NQ-Q01	Make Room for Music	Tori	Clear the pier performance area
NQ-Q02	Rhythm in the Metal	Tori	Collect I01 and create a four-step beat
NQ-Q03	First Dockside Jam	Tori	Optional first public performance
NQ-Q04	The Vent Has a Pulse	Ivo	Repair ventilation and collect I02
NQ-Q05	One Beat, Two Ways	Ivo	Create A/B variations
NQ-Q06	Records Remember	Naya	Sort and match musical materials
NQ-Q07	Keep Your Sound	Naya	Save composition to Beat Shelf
NQ-Q08	Market Is Listening	Sana Bell	Prepare the market for a concert
NQ-Q09	Signal, Not Noise	Mica	Collect I03 and answer a rhythmic prompt
NQ-Q10	Light the Breakwater	Mica	Restore the local radio signal
NQ-Q11	Open the Lantern Room	Ronan Wren	Speak to Ronan and prepare the stage
NQ-Q12	The Quay Plays Again	Ronan Wren and residents	Six-phase chapter concert and personal district restoration

Texture & material families / Shared atlas mapping

ID	Material family	Atlas slot	Mapping / missing production
MAT-01	Faded Teal Metal	paint_primary	Shared atlas reuse plus procedural DCC finish; final UV bake pending for brick/brass

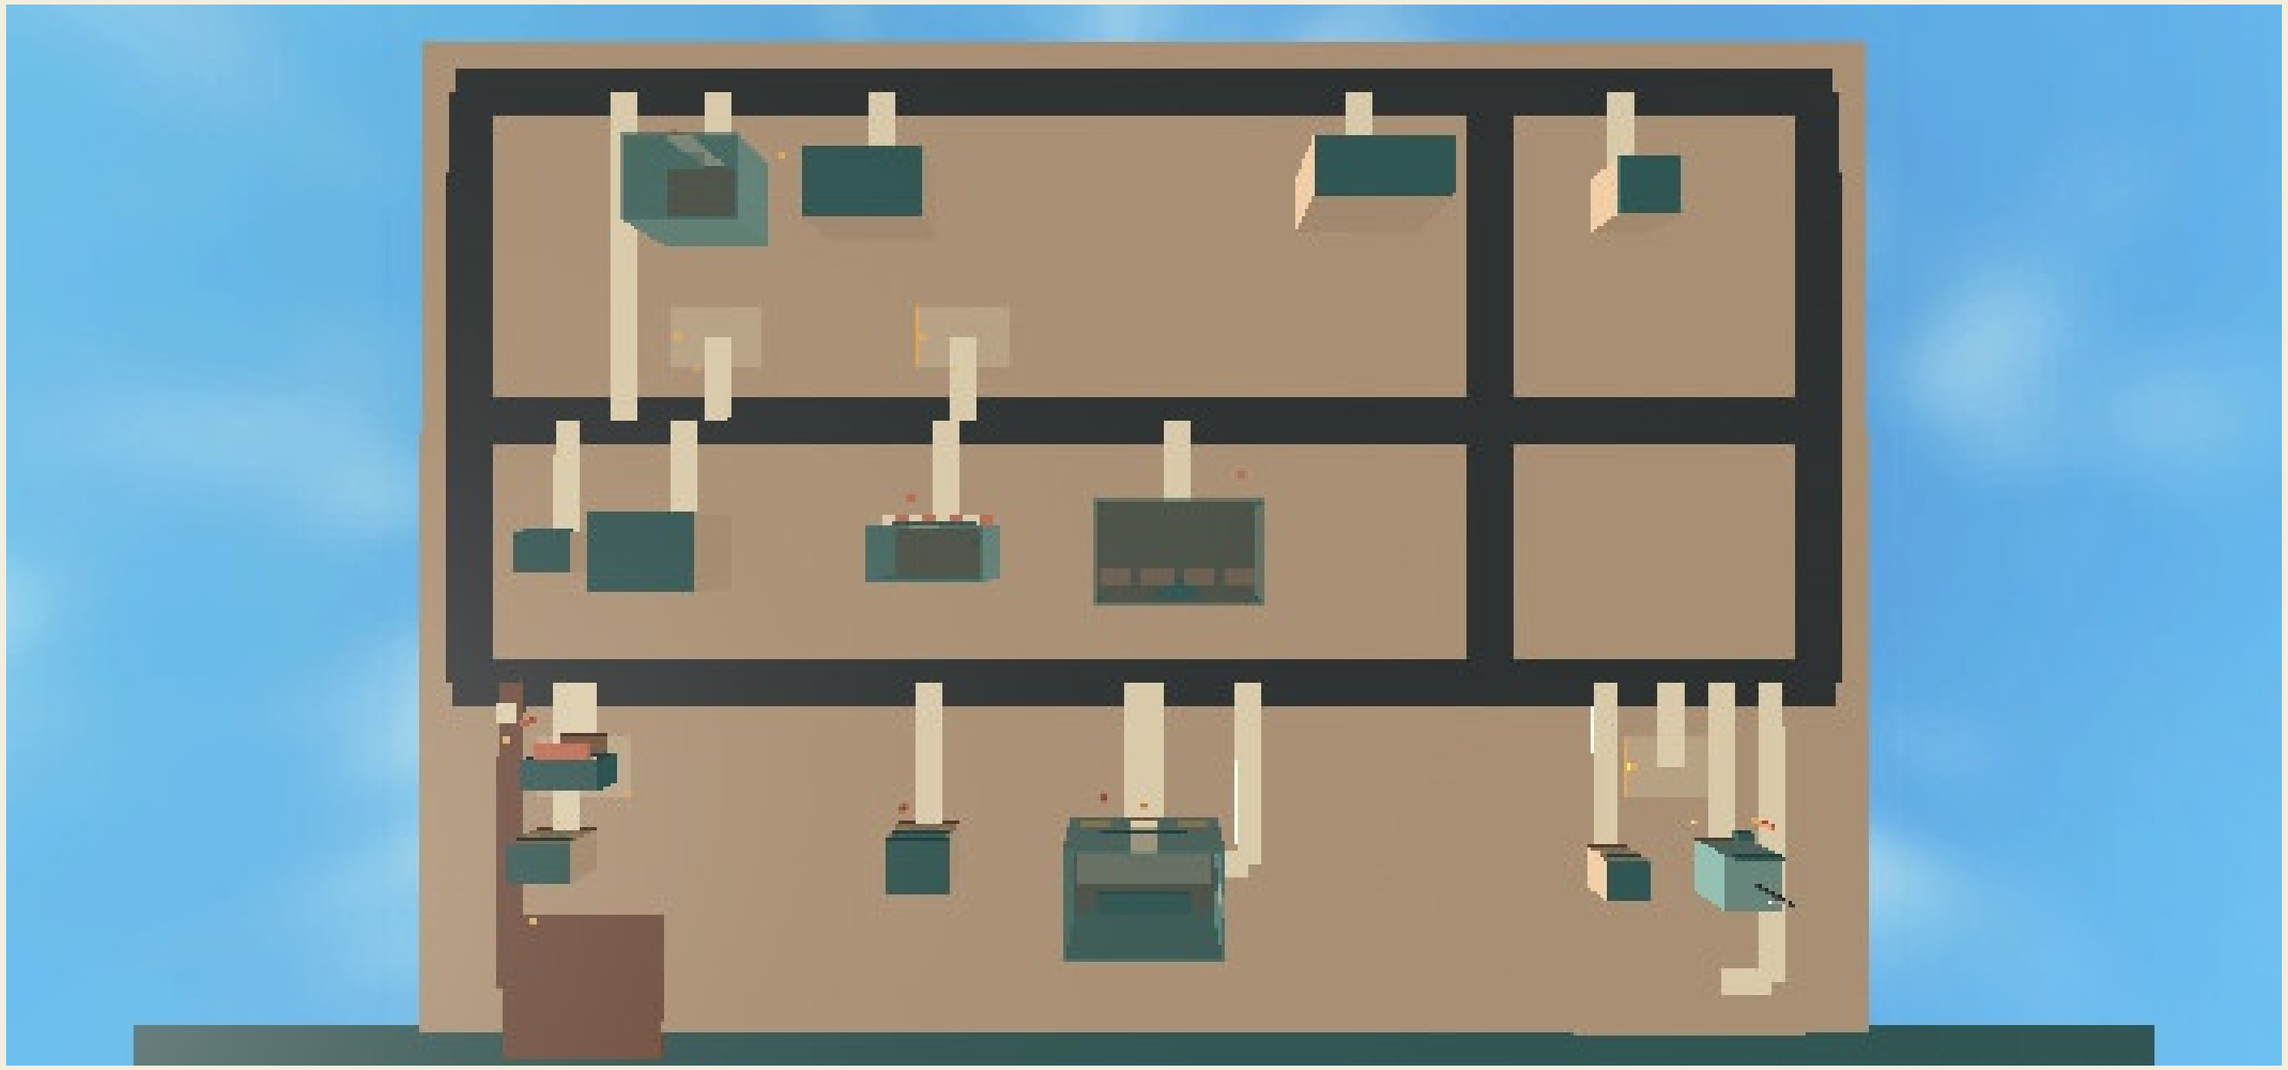
Blockout / Studio Edit reference



Native source: assets/blockouts/needle-quay/NeedleQuayEnvironmentBlockout.rbxmx
Local scene: output/needle-quay/NeedleQuayEnvironmentBlockout-v1.rbxlx
Historical Edit receipt: 13 buildings, 4 parking models, 270 Parts, PlaceId 0. NPC are location markers. No production meshes or runtime quests accepted.

Открытые construction decisions / Next production

H06: preserve canonical 32×16×24 and front-left floor-grid pivot. Proposed 24×18×19 is a visual alternative; the legacy 24×20 usable interior is incompatible with 16 depth. Approval of artbooks does not resolve the arithmetic. Do not silently resize the existing shop or its modules.

Morrow Repairs: locate one accessible P16/I02 attachment and give the sliding leaf an explicit clear travel zone. The facade fan is a visual wrapper, not an automatic replacement of the canonical discovery mesh.

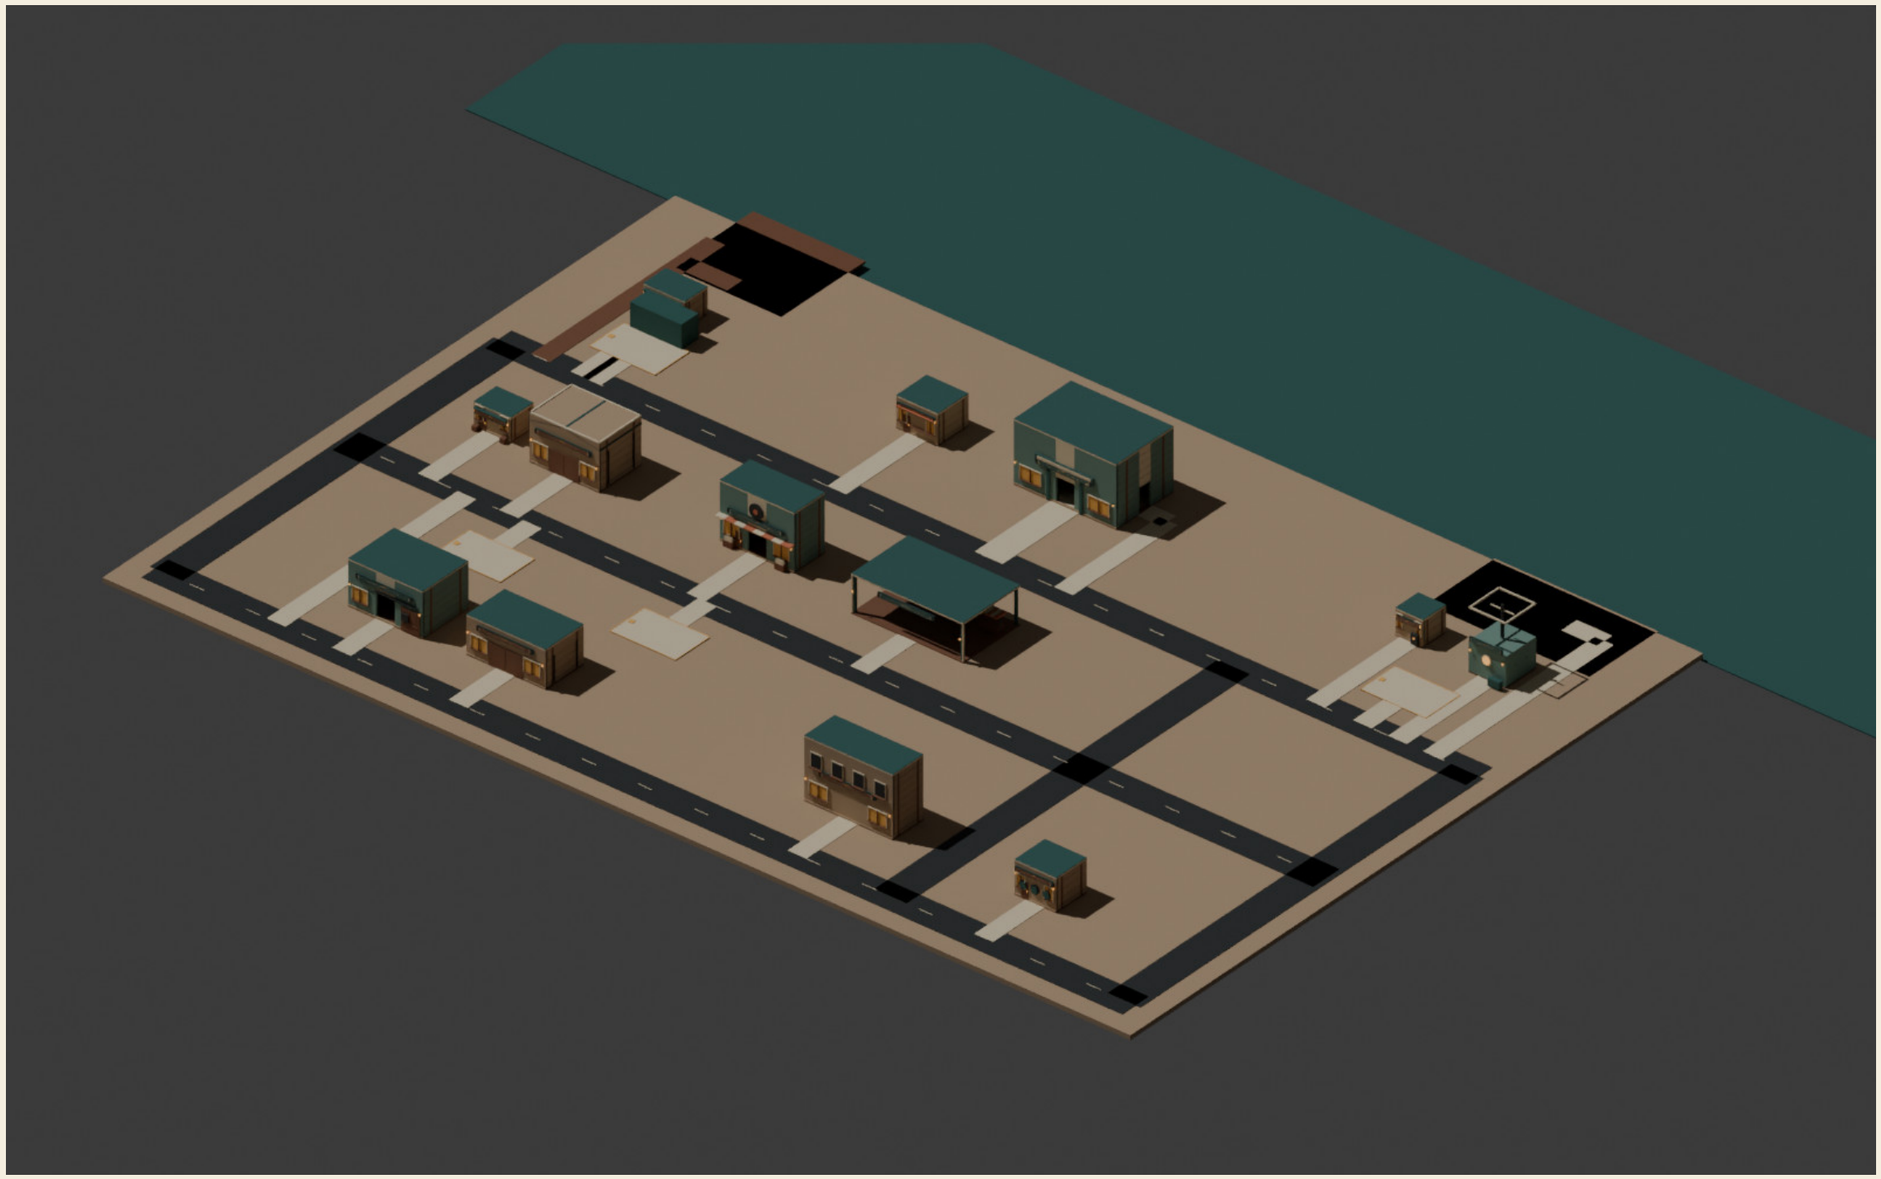
Signal House: choose one exact external-console face in construction; production proposal fixes the console on front -Z, right side. Preserve 26 total height including antenna.

Market: retain four stalls, open central aisle and separate performance nook. Coordinate roof/canopies/service bay in one exact authored plan.

Supporting facades: closed shells and short exterior interactions. Include rooftop equipment in total height. Site bases/ramps and dressing are separate elements, not hidden changes to authored envelopes.

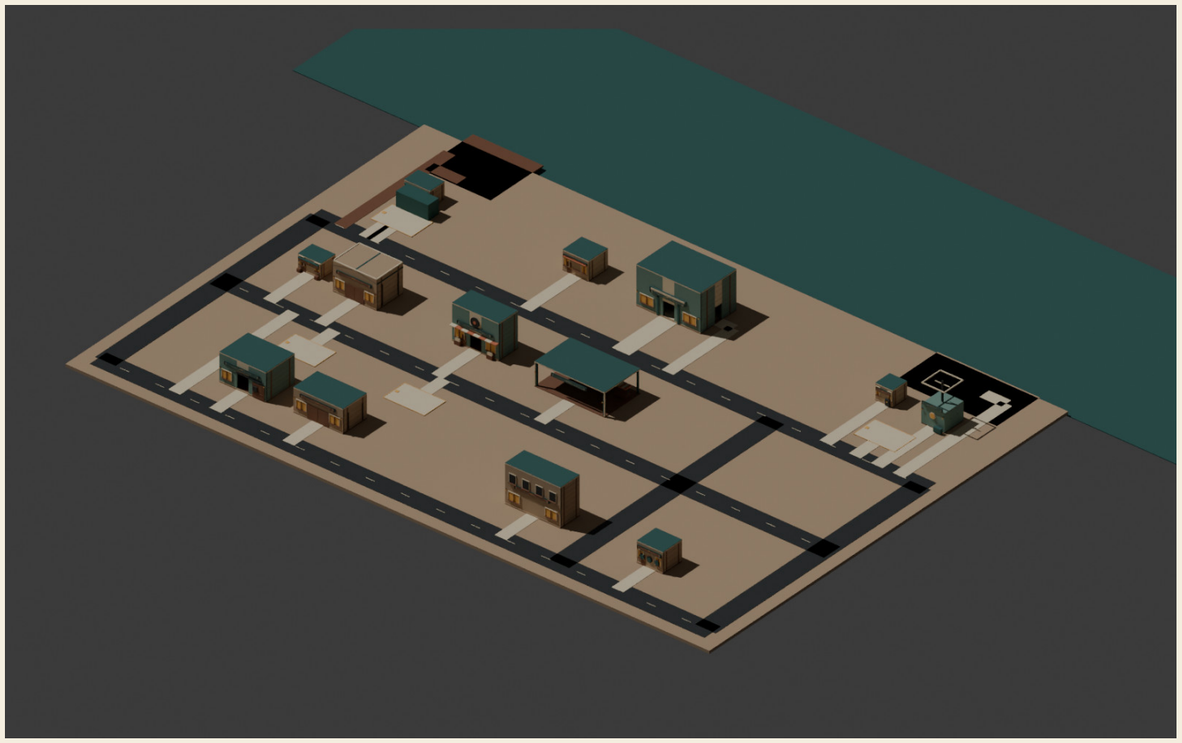
Production acceptance remaining: final UV consolidation and material baking on approved geometry, articulation/animation review, art approval of new candidates, device LOD profiling and executable quest/restoration integration. Local candidate files and full design contracts are included below.

Full district / Local assembly

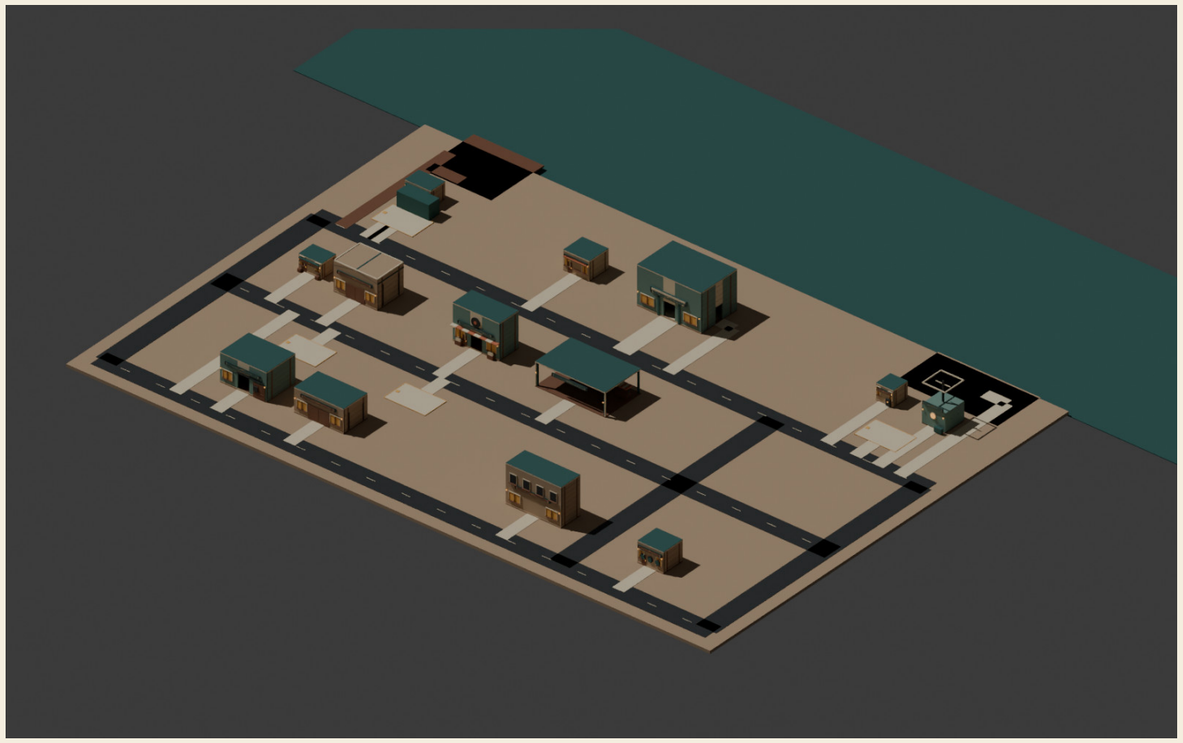


13 authored building sources assembled at register coordinates. Signs are separate graphic planes. LoopVan remains a layout proxy. Full local source: assets/production/needle-quay/site/NeedleQuayDistrict.blend. This is a design review assembly; no production meshes were uploaded to Roblox.

Restoration / Same geometry, local light presentation



BEFORE / amber inserts off



AFTER / amber inserts on

Rendered evidence shows light insert changes only. Per-building dressing and personal quest states are specified in the following cards. Runtime authority remains server-owned; client presentation must never grant rewards or mutate another player’s district.

TOP

Production field	Authored candidate / review boundary
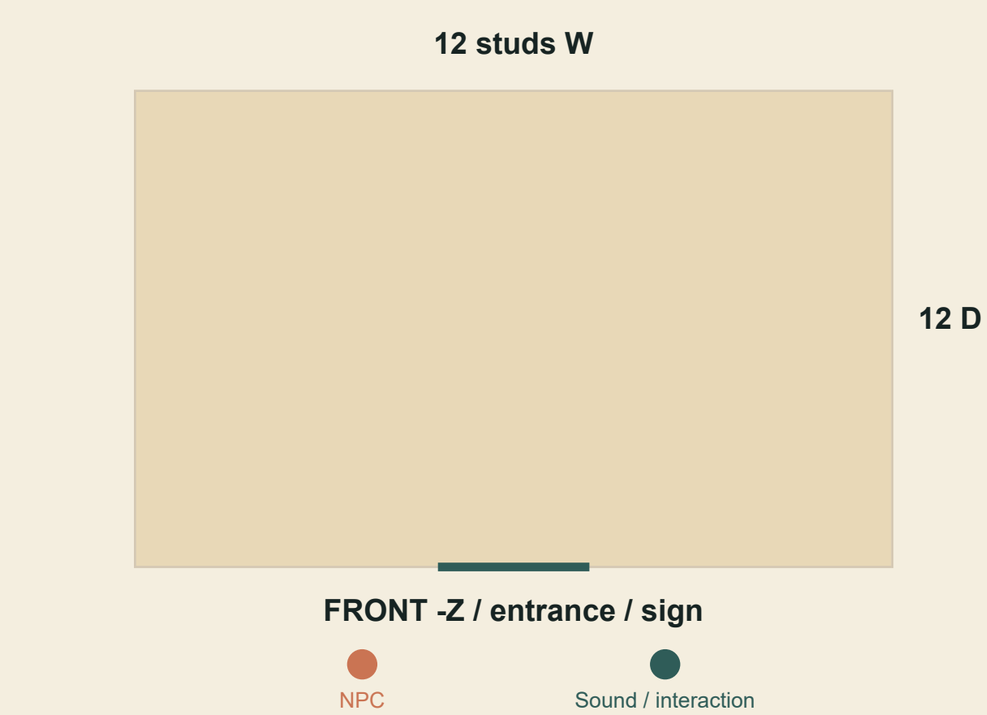
Core W/D/H	[12, 12, 11] studs; 3384 triangles; 34 mesh objects
Measured dressing bounds	[12.125, 13.425, 11.0] Blender X/Y/Z; exterior trim can exceed core footprint
Source / export	assets/production/needle-quay/models/NQ-BLD-12/NQ-BLD-12.blend / assets/production/needle-quay/models/NQ-BLD-12/NQ-BLD-12.glb
Module reuse	closed facade volume, shared door/frame/sill, roof trim, separate sign and fixture, reuse warehouse/residential/port kit
Material families	MAT-01, MAT-02, MAT-03, MAT-06, MAT-08, MAT-10
Facade graphic plan	NQ-SGN-12 front -Z; POST-04 front-side notice panel; GRA-02 right wall
Collision / LOD	Reuse native Part collision proxies. Visual meshes/decal planes noncollidable. Supporting shells closed; four market stalls keep open aisle. No auto hull covering hero doorway. Near: all authored meshes. Medium: hide bolts/brick courses/crates. Far: existing envelope proxy and sign silhouette. Explicit transition distances and draw calls need device profiling; no invented performance pass.

NQ-BLD-12 / Placement & restoration design



Site placement X/Z: [140, 95]
Entry / NPC / sound / interaction coordinates:
{'coordinate_space': 'Roblox layout coordinates X,Y,Z; front -Z; proposals, not runtime bindings', 'entrance': [140, 0, 89.0], 'npc': [136, 0, 86.0], 'sound': [144, 4, 88.0], 'interaction': [145, 2, 87.0]}

Interaction layout: Short exterior interaction at front (-Z); closed scenic shell.

BEFORE · schematic state plate
Faded poster; dim local fixture; loose exterior crate dressing.

AFTER · schematic state plate
New poster; amber fixture enabled; clear exterior path.

Sources retain separate shell, graphic planes, fixture inserts and role targets. Material IDs and layout are production proposals. Dressing deltas above are authored design states; the district render demonstrates insert lighting only. No animation, persistence or runtime acceptance is inferred.

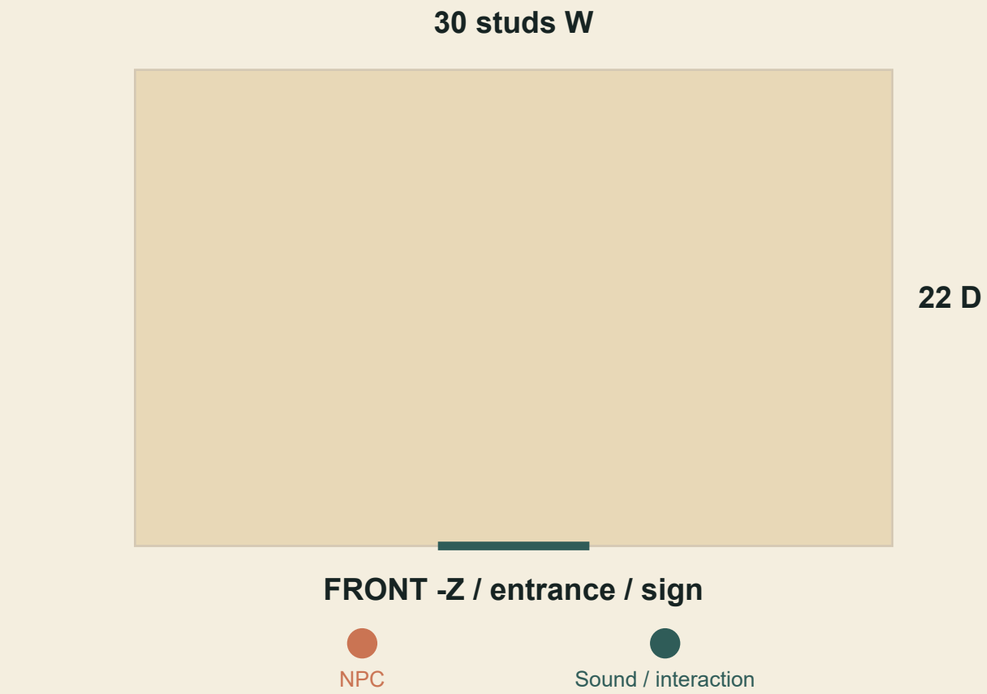
Collision / LOD	Reuse native Part collision proxies. Visual meshes/decal planes noncollidable. Supporting shells closed; four market stalls keep open aisle. No auto hull covering hero doorway. Near: all authored meshes. Medium: hide bolts/brick courses/crates. Far: existing envelope proxy and sign silhouette. Explicit transition distances and draw calls need device profiling; no invented performance pass.

NQ-BLD-13 / Placement & restoration design



Site placement X/Z: [-140, 0]
Entry / NPC / sound / interaction coordinates:
{'coordinate_space': 'Roblox layout coordinates X,Y,Z; front -Z; proposals, not runtime bindings', 'entrance': [-140, 0, -11.0], 'npc': [-144, 0, -14.0], 'sound': [-136, 4, -12.0], 'interaction': [-135, 2, -13.0]}

Interaction layout: Short exterior interaction at front (-Z); closed scenic shell.

BEFORE · schematic state plate
Faded poster; dim local fixture; loose exterior crate dressing.

AFTER · schematic state plate
New poster; amber fixture enabled; clear exterior path.

Sources retain separate shell, graphic planes, fixture inserts and role targets. Material IDs and layout are production proposals. Dressing deltas above are authored design states; the district render demonstrates insert lighting only. No animation, persistence or runtime acceptance is inferred.

Tori / Character design & model candidate

Field	Character production handoff
Identity / place	Broad vest, rolled sleeves, tool belt / Dockside Exchange
Rig / motion contract	15-bone rigid-part candidate; animation clips and Humanoid import not accepted; idle: subtle breathing and head turn, talk: small right hand gesture, work: role-specific upper body motion
Source / export	assets/production/needle-quay/models/NQ-NPC-TORI/NQ-NPC-TORI.blend / assets/production/needle-quay/models/NQ-NPC-TORI/NQ-NPC-TORI.glb
Acceptance	New design and rigid model are candidates; animation clips, Humanoid import, art approval and runtime checks pending. Existing H04 retains its historical evidence.

Ivo / Character design & model candidate

Field	Character production handoff
Identity / place	Tall slim body, work jacket, goggles / Morrow Repairs
Rig / motion contract	15-bone rigid-part candidate; animation clips and Humanoid import not accepted; idle: subtle breathing and head turn, talk: small right hand gesture, work: role-specific upper body motion
Source / export	assets/production/needle-quay/models/NQ-NPC-IVO/NQ-NPC-IVO.blend / assets/production/needle-quay/models/NQ-NPC-IVO/NQ-NPC-IVO.glb
Acceptance	New design and rigid model are candidates; animation clips, Humanoid import, art approval and runtime checks pending. Existing H04 retains its historical evidence.

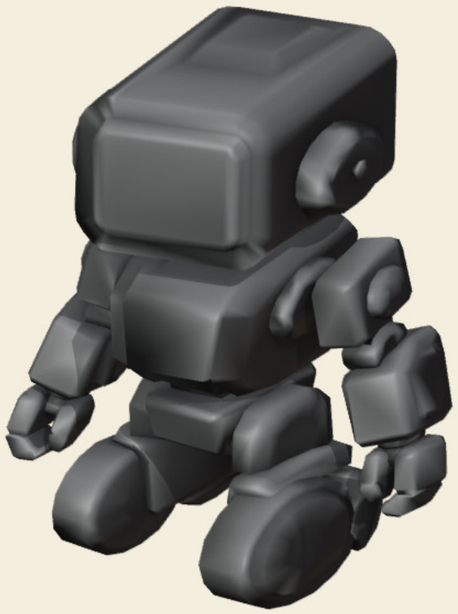
Naya / Character design & model candidate

Field	Character production handoff
Identity / place	Oversized sweater, bright vinyl bag / Needle Records
Rig / motion contract	15-bone rigid-part candidate; animation clips and Humanoid import not accepted; idle: subtle breathing and head turn, talk: small right hand gesture, work: role-specific upper body motion
Source / export	assets/production/needle-quay/models/NQ-NPC-NAYA/NQ-NPC-NAYA.blend / assets/production/needle-quay/models/NQ-NPC-NAYA/NQ-NPC-NAYA.glb
Acceptance	New design and rigid model are candidates; animation clips, Humanoid import, art approval and runtime checks pending. Existing H04 retains its historical evidence.

Sana Bell / Character design & model candidate

Field	Character production handoff
Identity / place	Large bag, order clipboard, coral accents / Harbor Market Hall
Rig / motion contract	15-bone rigid-part candidate; animation clips and Humanoid import not accepted; idle: subtle breathing and head turn, talk: small right hand gesture, work: role-specific upper body motion
Source / export	assets/production/needle-quay/models/NQ-NPC-SANA/NQ-NPC-SANA.blend / assets/production/needle-quay/models/NQ-NPC-SANA/NQ-NPC-SANA.glb
Acceptance	New design and rigid model are candidates; animation clips, Humanoid import, art approval and runtime checks pending. Existing H04 retains its historical evidence.

Mica / Character design & model candidate



Mica / H04 is reused unchanged. The canonical Blender and atlas GLB remain the source authority.

Field	Character production handoff
Identity / place	Preserve H04 canonical robot design / Van and Signal House
Rig / motion contract	Existing H04 contract retained; idle: subtle breathing and head turn, talk: small right hand gesture, work: role-specific upper body motion
Source / export	assets/cleaned/H04/H04_maintenance_helper_robot.blend / assets/optimized/H04/H04_atlas_v1.glb
Acceptance	New design and rigid model are candidates; animation clips, Humanoid import, art approval and runtime checks pending. Existing H04 retains its historical evidence.

Ronan Wren / Character design & model candidate

Field	Character production handoff
Identity / place	Long coat, keys, subdued tones, tired posture / The Lantern Room
Rig / motion contract	15-bone rigid-part candidate; animation clips and Humanoid import not accepted; idle: subtle breathing and head turn, talk: small right hand gesture, work: role-specific upper body motion
Source / export	assets/production/needle-quay/models/NQ-NPC-RONAN/NQ-NPC-RONAN.blend / assets/production/needle-quay/models/NQ-NPC-RONAN/NQ-NPC-RONAN.glb
Acceptance	New design and rigid model are candidates; animation clips, Humanoid import, art approval and runtime checks pending. Existing H04 retains its historical evidence.

Nell Fen / Character design & model candidate

Field	Character production handoff
Identity / place	Apron, broad silhouette, mug and notes / Warm Current Café
Rig / motion contract	15-bone rigid-part candidate; animation clips and Humanoid import not accepted; idle: subtle breathing and head turn, talk: small right hand gesture, work: role-specific upper body motion
Source / export	assets/production/needle-quay/models/NQ-NPC-NELL/NQ-NPC-NELL.blend / assets/production/needle-quay/models/NQ-NPC-NELL/NQ-NPC-NELL.glb
Acceptance	New design and rigid model are candidates; animation clips, Humanoid import, art approval and runtime checks pending. Existing H04 retains its historical evidence.

Quest / world contracts 1

NQ-Q00 — The Van Arrives / Mica
Complete: Interact with van tutorial anchor
Geometry: LOOPVAN-01 tutorial marker
Sound: existing composition playback / role ambience; no new audio license or upload implied

NQ-Q01 — Make Room for Music / Tori
Complete: Interact with three removable dock dressing targets
Geometry: Short exterior interaction at front (-Z); closed scenic shell.
Sound: existing composition playback / role ambience; no new audio license or upload implied

NQ-Q02 — Rhythm in the Metal / Tori
Complete: Unlock I01 and author four active beat steps
Geometry: Short exterior interaction at front (-Z); closed scenic shell.
Sound: I01 / dock metal

NQ-Q03 — First Dockside Jam / Tori
Complete: Accept performance invitation or skip without progression penalty
Geometry: Short exterior interaction at front (-Z); closed scenic shell.
Sound: I01 / dock metal

All progress is personal and server-authoritative. Cancel/rejoin retains committed steps; presentation must be idempotent. Optional performances do not gate progress. Existing samples/Beat Shelf contracts are retained. New chain implementation and runtime verification are not claimed.

Quest / world contracts 2

NQ-Q04 — The Vent Has a Pulse / Ivo
Complete: Repair P16 then unlock I02
Geometry: Front-right P16/I02 vent, left workbench, sliding leaf travel zone
Sound: I02 / vent pulse

NQ-Q05 — One Beat, Two Ways / Ivo
Complete: Save distinct A and B patterns
Geometry: Front-right P16/I02 vent, left workbench, sliding leaf travel zone
Sound: I02 / vent pulse

NQ-Q06 — Records Remember / Naya
Complete: Match three authored record tags
Geometry: Front door, left sorting counter, right Beat Shelf/listening nook
Sound: existing composition playback / role ambience; no new audio license or upload implied

NQ-Q07 — Keep Your Sound / Naya
Complete: Persist composition in existing Beat Shelf contract
Geometry: Front door, left sorting counter, right Beat Shelf/listening nook
Sound: existing composition playback / role ambience; no new audio license or upload implied

All progress is personal and server-authoritative. Cancel/rejoin retains committed steps; presentation must be idempotent. Optional performances do not gate progress. Existing samples/Beat Shelf contracts are retained. New chain implementation and runtime verification are not claimed.

Quest / world contracts 3

NQ-Q08 — Market Is Listening / Sana Bell
Complete: Clear performance nook without moving any of four stalls
Geometry: Sana at front-left; open central aisle; separate rear performance nook
Sound: existing composition playback / role ambience; no new audio license or upload implied

NQ-Q09 — Signal, Not Noise / Mica
Complete: Unlock I03 then submit matching rhythmic pattern
Geometry: Console fixed on front (-Z), right-hand side; I03 accessible without entering solid shell
Sound: I03 / radio response

NQ-Q10 — Light the Breakwater / Mica
Complete: Commit personal radio-restored flag
Geometry: Console fixed on front (-Z), right-hand side; I03 accessible without entering solid shell
Sound: I03 / radio response

NQ-Q11 — Open the Lantern Room / Ronan Wren
Complete: Complete Ronan conversation then stage-ready flag
Geometry: Lobby conversation, stage trigger, right-side service opening
Sound: existing composition playback / role ambience; no new audio license or upload implied

All progress is personal and server-authoritative. Cancel/rejoin retains committed steps; presentation must be idempotent. Optional performances do not gate progress. Existing samples/Beat Shelf contracts are retained. New chain implementation and runtime verification are not claimed.

Quest / world contracts 4

NQ-Q12 — The Quay Plays Again / Ronan Wren and residents
Complete: Advance six concert phases from personal server-owned completion events
Geometry: Lobby conversation, stage trigger, right-side service opening
Sound: existing composition playback / role ambience; no new audio license or upload implied
Six phases: arrival / resident gathering → dock rhythm → repair pulse A/B → vinyl motif → radio response → ensemble / restoration

All progress is personal and server-authoritative. Cancel/rejoin retains committed steps; presentation must be idempotent. Optional performances do not gate progress. Existing samples/Beat Shelf contracts are retained. New chain implementation and runtime verification are not claimed.

Delivery / Acceptance ledger

Compiled local package: 13 approved building concepts + 13 Blender/GLB candidates with four views each; 6 new character designs and 15-bone rigid candidates + canonical Mica/H04; 12 material sources/swatches; 61 graphic base designs + 8 faded poster variants; 13 quest/world design contracts; district assembly and native Part blockout.

Integrity: SHA-256 production file manifest and game-dev package verification receipts. CLI static validation is separate from project art approval, topology cleanup, performance profiling and engine/runtime acceptance. Generic CLI limits are not Roblox limits or newly authored project budgets.

Local-only: no Roblox uploads/publishing, no billable Tripo work. Current testing account is not used for deployment. Future adult-account deployment needs fresh explicit instruction.

Review gates: final UV/material baking and palette consolidation; detail fidelity to approved concepts; rig articulation/animation; final building/pivot/collision acceptance; local Studio import and personal quest/audio runtime verification. Candidate files do not bypass these gates.

Source of truth: data/needle-quay-environment.v1.json; assets/production/needle-quay/delivery-manifest.json; building-cards.json; graphics/graphics-manifest.json; npcs/npc-manifest.json; materials/material-manifest.json; quest-world-contracts.json. Browse output/needle-quay/index.html for every visual/source link.
